

Liquidate

Heavy Duty Cleaner & Quick Break Degreaser

LIQUIDATE is the total cleaner formulated with a revolutionary breakthrough in technology first used in the Persian Gulf to clean up the oil slick resultant of the Gulf War. LIQUIDATE's ability to attach itself to every type of grease and oil, pull them into solution and then separate into two phases (oil and water) makes LIQUIDATE an excellent choice where waste water purity and spent oil and grease recovery is critical. LIQUIDATE's remarkable formula contains no solvents or caustic hydroxides to emulsify wastes as used in most conventional degreasers today. Couple versatility with this and you have the answer to 99% of all cleaning requirements.

How to Use

LIQUIDATE is best dispensed through a comprehensive range of high and low pressure dispensing equipment available from your local TRUE BLUE CHEMICALS representative. Dilution rates are as follows:

1- 5	Engines
1- 20	Vinyl & ceramic tiled floors
1- 50	General cleaning
1- 100	Pressure washing

Features	Advantages	Benefits
Biodegradable	Safe to the environment	Peace of mind
Concentrated	High dilution rates	Economical
Effective on all oil-based stains	Versatile	Rationalises product use
Fast acting	Saves time	Saves money

Specifications

Colour	Blue / Green Liquid
Odour	Slight Floral
Hard Water Tolerance	Excellent
Rinsability	Free Rinsing
Flammability	Non-flammable
Biodegradability	Fully
