

Perform

Disinfectant / Deodorant

PERFORM is a multi-layered compound that attacks malodours on four levels:

- Masking putrid smells by complexing them with special aromatic oils
- Odour absorbing compounds trap and hold rotting and decaying odours
- Deodorising fresh floral spice fragrance replaces offending odours
- Disinfecting compounds destroys and removes bacterial sources of malodours

Use PERFORM to control and destroy malodours in toilets, hospitals, nursing homes, veterinaries, funeral parlours, caravan parks, sewerage treatment works, restaurants, hotels, clubs, rent-a-cars, buses, schools and all public areas.

How to Use

Larger Areas	PERFORM may be metered through a pressure spray at 120 parts water to one part product.
Medium to Smaller Areas	Where odour is more concentrated use PERFORM at 80 parts water to one part product in back mounted sprayer or bottle atomisers.
Commercial Grade Disinfectant	Dilute PERFORM one part product to 20 parts water to disinfect walls, floors, Gled areas, bench tops and wash basins. Make soluGon daily. Do not mix with soaps or detergents.
General Cleaner	Dilute one part product to 50 parts water.

Features	Advantages	Benefits
Biodegradable	Safe to the environment	Economical
Concentrated	High dilution rates	Saves money
Long life fragrance	Re-odorises	Imparts clean, fresh environment

Specifications

Colour	Red
Odour	Floral Spice
Hard Water Tolerance	Excellent
Rinsability	Yes
Flammability	Non-flammable
Biodegradability	Fully
