

Pinkchlor

Sanitiser / Destainer

PINKCHLOR is a multi-purpose powdered detergent sanitiser / destainer ideal for use in all commercial kitchens, bars, cellars and food preparation areas. PINKCHLOR combines both oxygen and chlorine releasing agents that easily neutralise tannin stains from crockery, glassware and tea and coffee pots leaving them streak free and sparkling.

How to Use

Glass Soaking	Dilute PINKCHLOR 250 grams (1 cup) to 20 litres warm water in plastic tub or sink. Soak glassware for 5 to 10 minutes
Destaining of Crockery	Dilute PINKCHLOR 150 grams to 15 litres warm water in standard sink. Soak for 10 to 15 minutes.
