

# **SAPPER**

# Section 1. Identification

Product identifier: Sapper **Product Code:** SAPPER

Other means of identification: N/A

Recommended use and restrictions on use: Grease, tar & sap remover. Use in accordance with

directions on product label.

Caringbah NSW 2229

Supplier: True Blue Chemicals

**Street Address:** 2/1 Endeavour Road Postal Address: PO Box 334

Caringbah NSW 1495

Phone No: 1800 635 746 Fax No: 02 9540 1983

Internet: www.truebluechemicals.com.au

# Emergency Phone No - 13 11 26 (POISONS INFORMATION CENTRE)

#### Section 2. **Hazards Identification**

Classified as hazardous according to the criteria of Safe Work Australia (SWA).

Classified as a dangerous good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

## **GHS Classification**

Flammable Liquids - Category 2 Skin corrosion/irritation - Category 2 Sensitization, skin - Category 1

# Signal Word **DANGER**

#### **Hazard Statements**

Highly flammable liquid and vapour.

Causes skin irritation.

May cause an allergic skin reaction.

#### **Pictograms**

# **Precautionary Statements**

Keep away from heat/sparks/open flames/hot surfaces - No smoking.

Keep container tightly closed. Use only non-sparking tools.

Take precautionary measures against static discharge.

Wear protective gloves/eye/face protection.

Wash hands thoroughly after handling.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy

to do. Continue rinsing.

If eye irritation persists: Get medical attention. IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. If skin irritation occurs: Get medical attention.

Store in a well-ventilated place. Keep cool.

In case of fire: Use CO2, foam or dry chemicals for extinction.

Dispose of contents in accordance with local/state regulations.

#### Section 3. Composition and Information on Ingredients

Chemical Name	CAS Number	Percentage (%)	
Ethanol	64-17-5	30 - 60	
D-Limonene	68647-72-3	30 - 60	
Isopropyl alcohol	67-63-0	1 - 10	
Other ingredients determined not to be hazardo	to 100		

# Section 4. First Aid Measures

Swallowed: DO NOT induce vomiting. Give plenty of water to drink. Seek medical attention or call the Poisons

Information Centre (13 11 26 - Australia only) for advice.

Eye Contact: Rinse with plenty of water for at least 15 minutes holding eyelids open. Remove contact lenses, if

present and easy to do. Continue rinsing. If symptoms persist seek medical attention.

Skin Contact: Immediately wash skin with plenty of water. Remove contaminated clothing and wash before reuse.

**Inhalation**: Move victim to fresh air. If symptoms develop, seek medical advice.

Symptoms caused by exposure: Redness, skin rash and irritation. Central nervous system depression including

stupor, slurred speech, incoordination, nausea and vomiting.

Medical attention and special treatment: No specific treatment. Treat symptomatically.

# Section 5. Fire Fighting Measures

#### Suitable extinguishing equipment:

Foam, dry chemical, CO<sub>2</sub>.

### Specific hazards arising from the chemical:

Flammable liquid. Can release vapours that form explosive mixtures with air. Vapour is slightly heavier than air and can travel to source of ignition and flash back to source. Carbon dioxide, carbon monoxide, and other toxic gases may be produced in the case of fire.

#### Special protective equipment and precautions for fire fighters:

Firefighters should wear full protective clothing including self-contained breathing apparatus & chemical splash suit. Remove from the vicinity containers not involved in the fire.

# Section 6. Accidental Release Measures

# Personal precautions, protective equipment and emergency procedures:

Ensure clean up is conducted by trained personnel only. Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin and eye contamination and inhalation of mists and vapours. Stop leak if safe to do so. Ensure adequate ventilation.

#### **Environmental precautions:**

Ensure no spillage enters drains or waterways. If significant amounts of product does enter a waterway, advise the Environmental Protection Authority or the local Council.

### Methods and materials for containment and cleaning up:

Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect and seal in properly labelled drums for disposal.

# Section 7. Handling and Storage

# Precautions for safe handling:

Eliminate sources of ignition. Do not use near sparks, open flames and hot surfaces. Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing. Take precautionary measures against static discharge.

#### Conditions for safe storage, including incompatibilities

Store in a cool, dry, well-ventilated place out of direct sunlight. Avoid sources of ignition. Keep containers closed at all times - Check regularly for spills. For large quantities, a fire extinguisher appropriate to class B fires should be kept in the vicinity (dry chemical or carbon dioxide). Store away from strong oxidisers.

# Section 8. Exposure Controls and Personal Protection

**National Exposure Standards:** An occupational exposure standard (OEL) has not been established for the product. The following components have been listed with an OEL as per Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.

Ingredient Name	CAS No	TWA	TWA	STEL	STEL
_		(ppm)	$(mg/m^3)$	(ppm)	$(mg/m^3)$
Ethyl alcohol	64-17-5	1000	1880	-	-

67-63-0 400 983 500 1230 Isopropyl alcohol

# **Engineering Controls:**

Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling vapours. Keep containers closed when not in use.

#### **Individual Protection Measures:**

Eye and face protection Safety glasses or chemical resistant goggles should be worn to prevent eye contact.

Skin protection Wear protective gloves to prevent skin contact. Suitable glove types: Nitrile, natural

rubber. Do not use gloves made of unsupported neoprene and polyvinyl alcohol (PVA).

Replace gloves regularly to avoid exposure from glove degradation.

If significant vapours or mists are generated, use an appropriate respirator in accordance Respiratory protection

with AS/NZS 1715 and AS/NSZ 1716.

Thermal hazards Refer to Section 5.

#### Section 9. **Physical and Chemical Properties**

Appearance: Liquid Colour: Orange

Odour: Citrus orange **Boiling Point:** Not available

Vapour Pressure: Not available Specific Gravity: 0.81

Flashpoint (°C): 20 (estimated) Flammability: Not available Water Solubility: Complete pH: Not available **Auto-ignition Temperature:** Viscosity: Not available Not available Relative Density: Not available **Evaporation Rate:** Not available Vapour Pressure **Melting Point/Freezing Point** Not available Not available

**Partition Coefficient:** 

Upper/Lower Flammability or Not available Not available

**Explosive Limits:** n-octanol/water

# Section 10. Stability and Reactivity

Reactivity: Not reactive.

Chemical Stability: Stable under normal ambient storage conditions. Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

Conditions to Avoid: Avoid sources of ignition, heat, high temperatures (store below 30°C) and direct

sunlight.

Incompatible Materials: Do not mix with other chemicals. Store away from acids, alkalis and strong oxidisers.

Hazardous Decomposition Products: Carbon monoxide, carbon dioxide and other toxic fumes.

# Section 11. Toxicological Information

# Information on Route of Exposure

#### **Acute Toxicity:**

Ingestion: No effects known. Eye Contact: No effects known. Skin Contact: No effects known. Inhalation: No effects known.

Skin Corrosion/Irritation: Irritating to skin. Serious Eye Damage/Irritation: Not classified.

Respiratory or Skin Sensitisation: May cause skin sensitisation by repeated and prolonged contact.

Germ Cell Mutagenicity: Not classified.

Carcinogenicity: Not classified.

Reproductive Toxicity: Not classified.

Specific Target Organ Toxicity (STOT) - Single Exposure: Not classified.

Specific Target Organ Toxicity (STOT) - Repeated Exposure: Not classified.

**Aspiration Hazard:** Not classified.

Immediate, Delayed and Chronic Health Effects From Exposure: Not classified.

Other Information: Not classified.

# Section 12. Ecological Information

**Ecotoxicity:** No data available.

Persistence and Degradability Expected to be readily biodegradable.

Bioaccumulative Potential Not expected to bioaccumulate.

Mobility in Soil Low sorption to soil / sediment, moderate migration to ground water

(Estimated Log  $K_{OC}$  value (EpiSuite KOCWIN): approx. 0.57).

Other Adverse Effects None known.

# Section 13. Disposal Considerations

**Disposal Methods** Refer to State/Territory Land Waste Management Authority. Dispose of material

through a licensed waste third party, in accordance with local regulations.

#### Section 14. Transport Information

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code for transport by Road and Rail (Special Provision 144).

UN Number UN1170

Proper Shipping Name or Technical Name ETHANOL SOLUTION

Transport Hazard Class 3
Packing Group | |

Environmental hazards for Transport purposes Not applicable
Special User Precautions Not applicable
Additional Information Not Applicable

Hazchem or Emergency Action Code •2YE

# Section 15. Regulatory Information

NICNAS All substances are listed on the Australian Inventory of Chemical Substances

(AICS).

Poisons Schedule (SUSMP) None allocated.

# Section 16. Other Information

This information is provided to the best of our knowledge and belief, accurate as of the last revision date. It is provided in good faith and relates to the specific materials designated. True Blue Chemicals assumes no liability or responsibility for loss or damage resulting from improper use or handling of our products from incompatible product combinations or from failure to follow usage directions. This document remains the property of True Blue Chemicals Pty Ltd. Alterations are not permitted without prior written authorisation from True Blue Chemicals Pty Ltd.

#### Glossary:

**Peak limitation** means a maximum or peak airborne concentration of a substance determined over the shortest analytically practicable period of time which does not exceed 15 minutes.

# Log Koc Adsorption Classifications

> 4.5 Very strong sorption to soil / sediment, negligible migration to ground water

3.5 - 4.4 Strong sorption to soil / sediment, negligible to slow migration to ground water

- 2.5 3.4 Moderate sorption to soil / sediment, slow migration to ground water
- 1.5 2.4 Low sorption to soil / sediment, moderate migration to ground water
- < 1.5 Negligible sorption to soil / sediment, rapid migration to ground water
