

# CARPET SPOT REMOVER WIPES

Need to clean  
up after a spill?

## CARPET SPOT REMOVER WIPES

CARPET SPOT REMOVER WIPES combine powerful cleaning agents with waste-digesting bacteria to produce a product that literally "wipes" away heavy soils and stains.

Within seconds the cleaning agents and surfactants are already working to separate the soil from the carpet fiber's. Once the stain is separated from the fiber's, the bacteria go to work to digest any organic matter that may be present, as well as any odours that may accompany the stain.

These wipes remove some of the toughest stains like: wine, coffee, crayon, texta, juice, lipstick, shoe polish, oil, tomato sauce, blood, ink, pet accidents, vomit and more. They're not only great to use on carpets, but they also remove stains from fabrics,

## FEATURES

- Eliminates odours and stains by digesting organic waste caused by pets, vomit, mildew, food etc.
- Dries to a colour-less powder that vacuums away.
- Dampened wipes can be left on stains overnight for extended cleaning of unseen odours and stains.
