

TRUE GREEN WINDOW SHIMMER

Section 1. Identification

Product identifier:	True Green Window Shimmer	Product Code:	WINDSHIM
Other means of identification:	N/A		
Recommended use and restrictions on use:	Glass and mirror cleaner. Use in accordance with directions on product label.		
Supplier:	True Blue Chemicals		
Street Address:	2/1 Endeavour Road Caringbah NSW 2229	Postal Address:	PO Box 334 Caringbah NSW 1495
Phone No:	1800 635 746		
Internet:	www.truebluechemicals.com.au		

Emergency Phone No - 13 11 26 - Poisons Information Centre

Section 2. Hazards Identification

Classified as hazardous according to the criteria of Safe Work Australia (SWA).

Not classified as dangerous goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail, Edition 7.3 - Special provision 144.

GHS Classification

Flammable Liquids - Category 3

Serious Eye Damage/Irritation - Category 1

Signal Word

DANGER

Hazard Statements

Flammable liquid and vapour

Causes serious eye damage

Pictograms

Precautionary Statements

Keep away from heat. No smoking.

Keep container tightly closed.

Use only non-sparking tools.

Take precautionary measures against static discharge.

In case of fire, use carbon dioxide, alcohol foam and dry chemical to extinguish.

Wash hands thoroughly after handling.

Wear protective gloves and eye/face protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call the POISONS INFORMATION CENTRE (13 11 26 - Australia only) or a doctor.

Store in a well-ventilated place. Keep cool.

Dispose of contents/container in accordance with State legislation.

Section 3. Composition and Information on Ingredients

Chemical Name	CAS Number	Percentage (%)
Ethanol	64-17-5	10 - 30
Polymer based on 2-propylheptanol	166736-08-9	1 - 10
Other ingredients determined not to be hazardous or below concentration cut-off		to 100

True Green Window Shimmer

Section 4. First Aid Measures

- Swallowed:** DO NOT induce vomiting. Give plenty of water to drink. Get medical attention.
- Eye Contact:** Rinse with plenty of water for at least 15 minutes holding eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention.
- Skin Contact:** Wash skin with plenty of water. If symptoms develop, seek medical advice.
- Inhalation:** Move affected person to fresh air, If symptoms develop, seek medical advice.
- Symptoms caused by exposure:** May experience burning sensation in eyes.
- Medical attention and special treatment:** No specific treatment. Treat symptomatically.

Section 5. Fire Fighting Measures

- Suitable extinguishing equipment:**
Dry chemical, CO₂ or alcohol foam. Water spray may be used to cool surrounding containers.
- Specific hazards arising from the chemical:**
Flammable liquid. Can release vapours that form explosive mixtures with air. Vapour is slightly heavier than air and can travel to source of ignition and flash back to source. Oxides of carbon & other toxic gases may be produced in the case of fire.
- Special protective equipment and precautions for fire fighters:**
Firefighters should wear full protective clothing including self-contained breathing apparatus & chemical splash suit. Remove from the vicinity containers not involved in the fire.

Section 6. Accidental Release Measures

- Personal precautions, protective equipment and emergency procedures:**
Ensure clean up is conducted by trained personnel only. Remove sources of ignition. Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin and eye contamination and inhalation of mists and vapours. Stop leak if safe to do so. Ensure adequate ventilation.
- Environmental precautions:**
Ensure no spillage enters drains or waterways. If product does enter a waterway, advise the Environmental Protection Authority or local Council.
- Methods and materials for containment and cleaning up:**
Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect & seal in properly labeled drums for disposal in accordance with regulations indicated in Section 13 - Disposal Considerations.

Section 7. Handling and Storage

- Precautions for safe handling:**
Eliminate sources of ignition. Do not use near sparks, open flames and hot surfaces. Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing. Take precautionary measures against static discharge.
- Conditions for safe storage, including incompatibilities**
Store in a cool, dry, well-ventilated place out of direct sunlight. Store away from strong acids, caustics & oxidisers. Keep containers closed at all times - check regularly for spills.

Section 8. Exposure Controls and Personal Protection

National Exposure Standards: Source: Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.

Ingredient Name	CAS No	TWA (ppm)	TWA (mg/m ³)	STEL (ppm)	STEL (mg/m ³)
Ethanol	64-17-5	1000	1880	-	-

True Green Window Shimmer

Engineering Controls:

Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling mists and vapours. Keep containers tightly closed when not in use.

Individual Protection Measures:

Eye and face protection Safety glasses or chemical resistant goggles should be worn to prevent eye contact.

Skin protection Not normally needed. If necessary, wear rubber gloves to prevent skin contact. Replace gloves regularly to avoid chemical breakthrough.

Respiratory protection Not normally needed. If significant vapours or mists are generated, use an appropriate respirator in accordance with AS/NZS 1715 and AS/NZS 1716.

Thermal hazards Refer to Section 5.

Section 9. Physical and Chemical Properties

Appearance:	Liquid	Colour:	Purple
Odour:	Mild	Boiling Point(°C):	Not available
Vapour Pressure:	Not available	Specific Gravity:	0.97 - 0.99
Flashpoint (°C):	37 (approx.)	Flammability:	Not available
Water Solubility:	Complete	pH:	10.0 - 11.0
Auto-ignition Temperature:	Not available	Viscosity:	Not available
Relative Density:	Not available	Evaporation Rate:	Not available
Vapour Pressure	Not available	Melting Point/Freezing Point	Not available
Partition Coefficient: n-octanol/water	Not available	Upper/Lower Flammability or Explosive Limits:	Not available

Section 10. Stability and Reactivity

Reactivity: Not reactive.

Chemical Stability: Stable under normal ambient storage conditions.

Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

Conditions to Avoid: Avoid high temperatures (store below 30°C) and direct sunlight. Protect against physical damage. Avoid sources of ignition and static discharge.

Incompatible Materials: Do not mix with other chemicals. Store away from acids, caustics, halogens and strong oxidisers.

Hazardous Decomposition Products: Oxides of carbon.

Section 11. Toxicological Information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms that may arise if the product is mishandled and over exposure occurs are:

Information on Route of Exposure

Acute Toxicity:

Ingestion: Swallowing in small amounts is unlikely to cause any adverse effects. Larger doses may cause nausea and vomiting.

Eye Contact: No toxicity effects known.

Skin Contact: No toxicity effects known.

Inhalation: No toxicity effects known.

True Green Window Shimmer

Skin Corrosion/Irritation:	Not classified
Serious Eye Damage/Irritation:	Severely irritating and may cause irreversible eye damage if left untreated.
Respiratory or Skin Sensitisation:	Not classified
Germ Cell Mutagenicity:	Not classified
Carcinogenicity:	Not classified
Reproductive Toxicity:	Not classified
Specific Target Organ Toxicity (STOT) - Single Exposure:	Not classified
Specific Target Organ Toxicity (STOT) - Repeated Exposure:	Not classified
Aspiration Hazard:	Not classified
Immediate, Delayed and Chronic Health Effects From Exposure:	May experience burning sensation, shortness of breath, headache, nausea and vomiting.
Other Information:	None known.

Section 12. Ecological Information

Ecotoxicity:	No product data available.
Persistence and Degradability	Readily biodegradable.
Bioaccumulative Potential	Not expected to bioaccumulate.
Mobility in Soil	Negligible sorption to soil / sediment, rapid migration to ground water (Estimated Log K _{oc} value (EpiSuite 4.1 KOCWIN): <1).
Other Adverse Effects	None known

Section 13. Disposal Considerations

Disposal Methods	Refer to State/Territory Land Waste Management Authority. Dispose of material through a licensed waste third party, in accordance with local regulations.
-------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------

Section 14. Transport Information

Not classified as a Dangerous Good by the criteria of the Australian Dangerous Goods Code (ADG 7.3) for transport by Road and Rail - Special Provisions 144.

UN Number	Not applicable
Proper Shipping Name or Technical Name	Not applicable
Transport Hazard Class	Not applicable
Packing Group	Not applicable
Environmental hazards for Transport purposes	Not applicable
Special User Precautions	Not applicable
Additional Information	Not Applicable
Hazchem or Emergency Action Code	Not applicable

Section 15. Regulatory Information

NICNAS:	All substances are listed on the Australian Inventory of Chemical Substances (AICS).
Poisons Schedule (SUSMP):	None allocated

Section 16. Other Information

This information is provided to the best of our knowledge and belief, accurate as of the last revision date. It is provided in good faith and relates to the specific materials designated. True Blue Chemicals assumes no liability or responsibility for loss or damage resulting from improper use or handling of our products from incompatible product combinations or from failure to follow usage directions. This document remains the property of True Blue Chemicals Pty Ltd. Alterations are not permitted without prior written authorisation from True Blue Chemicals Pty Ltd.

Glossary:

True Green Window Shimmer

Special Provision 144: “An aqueous solution containing not more than 24% alcohol by volume is not subject to this Code.” (ADG Code 3.3.2)

Peak limitation means a maximum or peak airborne concentration of a substance determined over the shortest analytically practicable period of time which does not exceed 15 minutes.

Log K_{oc} Adsorption Classifications

- > 4.5 Very strong sorption to soil / sediment, negligible migration to ground water
- 3.5 - 4.4 Strong sorption to soil / sediment, negligible to slow migration to ground water
- 2.5 - 3.4 Moderate sorption to soil / sediment, slow migration to ground water
- 1.5 - 2.4 Low sorption to soil / sediment, moderate migration to ground water
- < 1.5 Negligible sorption to soil / sediment, rapid migration to ground water
