Ask about our free on loan dispensers and no obligation trials for your public or private hospital, aged care facility or clinic.

# HAND HYGIENE

Reduce healthcare associated infections and improve patient outcomes by increasing levels of hand hygiene compliance.

## Hand Sanitiser

Readily biodegradable PURELL® gel and foam formula kill 99.99% of most common germs.

70% ethanol formula for gel and 72% ethanol formula for foam. Australian Register of Therapeutic Goods: GEL AUST R 174017, FOAM AUST R 209523.

Meets EN Norms: EN1040, EN1275 and EN1500.

Made with 100% naturally renewable ethanol with natural moisturisers helping to condition skin.

Recyclable PET plastic, GOJO® Sanitary Sealed™ refill pods eliminate the spread of bacteria.

PURELL® helps support WHO, CDC & Hand Hygiene Australia guidelines.

Lockable, touch free and push dispenser choices available as well as pump bottles and personal packs.

A variety of accessory options offered such as personal clips, free standing floor and desk stands, trolley, IV pole, bed end and wall brackets as well as SHIELD™ floor and wall protectors and MESSENGER™ dispenser stations.

Good Environmental Choice Australia certified.

LTX® Touch Free Dispenser	(1.2ml x 583 shots per refill)

ADX® Manual Dispenser	(1.2ml x 583 shots per refill)
FMX® Manual Dispenser	(1ml x 1200 shots per refill)

## Hand Soap

Various pH neutral foam and liquid formulas available.

Enriched with moisturisers, natural extracts and skin conditioners. Recyclable PET plastic, GOJO® Sanitary Sealed™ refill pods eliminate the spread of bacteria.

Lockable, touch free and push dispenser options.

LTX® Touch Free Dispenser	(0.9ml x 778 shots per refill)
TFX® Touch Free Dispenser	(0.6ml x 2000 shots per refill)
ADX® Manual Dispenser	(0.9ml x 778 shots per refill)
FMX® Manual Dispenser	(0.7ml x 1786 shots per refill)

## Skin Conditioner

GOJO® HAND MEDIC™ Professional Skin Conditioner helps maintain skins natural protective barrier and prevent dry and damaged hands. Silicon and fragrance free this conditioner absorbs quickly with no greasy after feel.

Push dispenser option (1.2ml x 666 shots per refill) available as well as pump bottles and personal packs.

## Gloves

Vinyl and Latex glove options available in lightly powdered and powder free for no residue.

Rubber and Safety glove varieties also available for safe chemical handling.

A variety of sizes offer a high level of comfort, durability and protection.

# CLEANING CHEMICALS

Improve patient and workplace safety by reducing infection risk through superior formulations and systems.

## Dispensing Equipment & Compliance Documentation

A comprehensive cleaning chemical package that consists of chemicals, site audits reported online, technical and compliance support as well as onsite and online training and education.

MSDS and safety chart documentation are professional, durable, highly visible and simple to read.

Highly concentrated chemicals work best through efficient, safe and easy to use dispensing systems.

Colour and number coded screen printed bottles available as well as Recognised™ accredited environmentally friendly chemical options.

Chemicals suited for housekeeping, food service areas, laundry and floor care, as well as insect spray, detergents and urinal tablets.

Also available are body washes and shampoos which are enriched with natural moisturisers and conditioners for skin and hair.

Spill and PPE kits also available.

## Odour Control

### Nilogel Shaker Spill Pack

Absorb, gel and deodorise vomit, urine, blood and other odour causing accidents.

Non-toxic and biodegradable formula can be used in bedpans and on hardwood, carpet, concrete and lino and absorbs over 100 times its weight.

### Air Freshener

Automatic metered aerosol dispensing system, eliminates malodours in the air for up to 24 hours. Delivers 3100 metered releases and features various minute settings along with battery and aerosol indicator lights. Refreshing fragrance options are an environmentally safe odour counteractant for long term odour neutralisation.

### Trap & Drain Treatment

Recommended for grease traps and pipelines this multi-strain bacterial formulation is non-corrosive, non-toxic and will liquefy and digest complete proteins, cellulose and starch, yet resilient to bleach, disinfectants and many other cleaning chemicals.

# CLEANING ACCESSORIES

Reduce the risk of cross contamination between different working areas with colour coded cleaning accessories and systems.

## Trolley Systems

Holds everything the cleaner requires in a ready to use state including tools for high dusting, wall washing, surface wiping, floor mopping and waste emptying. Can have all accessories and chemicals concealed out of view of patients and guests as well as lockable options.

## Microfibre & Cloths

Anti-bacterial microfibre cloths are designed to remove 99.9% of germs from most non porous surfaces. They can be laundered and work with or without the use of chemicals. Available in microfibre are cloths, wall washing covers, dusters and mops.

## Mopping Systems

A selection of chemical resistant buckets ranging from 9.6L to 18L plus systems including bucket-less mops, pre-soaked mops and buckets with dividers to separate clean solution from dirty rinse solution.

## Dusters

Microfibre options that grab all types of dust from all types of surfaces. Can be hand held or attached to an extension pole for hard to reach places.

## Caution Signs

Light weight, sturdy, non-slip and different sized A Frame, cone and door sign options available.

## Colour Coding

The primary purpose of colour coding cleaning accessories is to help prevent cross contamination. Colour coding creates a cleaner and safer environment while improving safety for staff, patients and guests.

White	Used in theatre and operating areas
Red & Pink	Used in washrooms
Green	Used in food preparation areas
Blue	Used in general areas
Yellow	Used in highly critical isolation areas

# PAPER PRODUCTS

Environmentally responsible solutions to reduce waste, consumption, maintenance and costs.

## Controlled Use Paper

### Ecosoft™ Opticore Toilet Tissue

100% recycled paper, available in 1ply (1755 sheets) & 2ply (865 sheets) with embossed options for softness.

High capacity system holds three full rolls with dual core ensuring complete use of roll before advancing to the next while minimising mess and blockages.

Lockable, sturdy ABS plastic dispensers are ADA Title III compliant and are available in a selection of colours.

### Ecosoft™ Controlled Roll Towel

100% recycled paper towel roll is 192 metres in length. Once in dispenser it delivers pre-measured towel to discourage waste.

Unique stub roll transfer feature eliminates wasted towelling, double feeding and service interruptions.

Lockable, sturdy ABS plastic dispensers are ADA Title III compliant and are available in a selection of colours.

## Universal Paper

### Toilet Tissue

100% recycled paper & 100% post-consumer waste options available in Jumbo and Standard Individually Wrapped sizes.

Perforated and embossed options for easy use and softness.

# Testimonials

## Stockland Retirement Villages

---

When I first contacted mysupply, I was thoroughly impressed by the enthusiasm and belief they have in their products and service. The products are great and the importance of providing a clean and safe environment is paramount and mysupply are at the forefront in promoting this.

*Drasko, Stockland Retirement Villages*

## St Vincent's Hospital

---

I have always found mysupply to be professional, informative and solution focused. Their customer focus and value for money is excellent. They are happy to come into my business and assist with any issues relating to stock supply and problem solve for me. Communication is one of the biggest challenges in this industry and mysupply make a point of informing the client of changes or issues as they arise. This was proven during a changeover of chemical supplier when mysupply were responsible for the administration and legislative requirements. All documents and relative information was correctly supplied with follow up assistance provided in a friendly and efficient manner.

*Stephen, St Vincent's Hospital*

## Healthscope

---

Since the installation of ESG PURELL electronic dispensers throughout our hospital we have found a marked increase of around 20% in hand hygiene compliance among staff. We have found the dispensers are easy to install and well located. This, along with regular and effective education has helped to ensure the health and safety of our patients.

*James, Healthscope*
