

5V/12V DC CHARGING STATION (2.1A)

INSTALLATION:

1. Attach bar mount with provided rubber spacers, tighten screw knob.
2. Slide charging station onto mount until it locks into place. If needed, screw adhesive flat mount to the bottom of charging station, then attach double sided adhesive.
3. If you have a GearBrake wire harness remove the seat and disconnect the bike's rear lighting connector, plug wire harness in between. Charging station will be powered anytime bike is turned on.
3. If not using harness connect wiring to battery or switched power wire (refer to your bike's wiring diagram. Red connector is positive.
