

Mounting:

Choose the right location:

The Vector is designed to be mounted under the rear tail of the vehicle and illuminate a red 'stop line' on the road to indicate braking and help improve visibility.

-Connect power wire to brake signal to create light that activates anytime you brake.

-Connect power wire to switched circuit to create light that is on anytime bike is powered.

-Connect power wire to switch to create light that is manually activated.

Ground (-)

Power (+)

For using with GearBrake Module:

Installing GearBrake module to flash the Vector

Wiring

1. Connect green wire of GearBrake module to a chassis ground source.
2. Connect the black wire of Vector to a chassis ground source.
3. Connect yellow wire of GearBrake module to the red wire of Vector.
4. Connect red wire of GearBrake module to a 12v power source. **Install unit on a switched circuit such as your running lights or license plate light to prevent battery drain.**
5. The blue wire of the GearBrake module will be unused in this configuration.

Gearbrake warrants to the original purchaser that this product is free from defects in materials and workmanship for the period of its lifetime from the date of purchase. This warranty does not apply to damage due directly or indirectly to misuse, abuse, negligence or accidents; repairs or alterations outside our facilities; or to lack of maintenance. We shall in no event be liable for death, injuries to persons or property, or for incidental, contingent, special or consequential damages arising from the use of our product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations of exclusion may not apply to you.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state. The installation of any aftermarket part may void or otherwise adversely affect your factory warranty. In addition, such installation and use may violate certain federal, state and local laws, rules and ordinances as well as other laws when used on motor vehicles operated on public highways, especially in states where highway safety laws may apply. Always check federal, state, and local laws before modifying your motorcycle. It is the sole and exclusive responsibility of the user to determine the suitability of the product for his or her use, and the user shall assume all legal, personal injury risk, and liability and all other obligations, duties and risks associated therewith. Use only as intended. Patent Pending.

Important Note: Always test your brake lights before each use. Upon powering up, the Gearbrake module will always flash a test startup sequence to the lights AND THEN TURN OFF. If this does not occur, discontinue its use and notify GearBrake immediately.
