

LAZZONI

KITCHENS

A LEGACY FROM THE PAST

Chelsea, New York City
2009

Headquarters in Ankara, Turkey. First modern
manufacturing facility.
2002

Our 2nd and 3rd generations standing
in front of Lazzoni's first carpentry shop
1960

Ahşap ve madeni mutfak dolaplarımız, standart boyutlarda olduğu gibi, istenilen ölçülerde imal edilebilir.
Istenilen renge boyanabilen ahşap malzeme dış etkilerden kesinlikle etkilenmez.

Wooden and metal kitchen cabinets can be manufactured at standart sizes as well as at any dimensions desired.
The wooden equipment paintable to any desired colour are completely resistant to external conditions.

BULUT KITCHEN

The kitchen lies at the heart of Lazzoni, just like in our homes. Accompanying us on the journey originating from our roots, leading to our dreams. Migrating to Ankara in 1947, Master Osman, the 2nd generation carpenter son of Hasan, lays the foundations of the family business in his small artisan shop. In less than 10 years, Bulut Kolektif was established, becoming the first modular kitchen manufacturer of Eastern Europe and Turkey. For 30 years, kitchens were all about Bulut Mutfak making the brand a trademark of quality.

HIGH-QUALITY
INNOVATIONS

BALMORAL

Inviting blue cabinets and pure white countertops perfectly blend with natural wood details, referencing the overall design. The island offers extra space for a sink and cabinets while defining a dining area with its cantilevered countertop.

VISON

Crafted with high-end materials and tailored details, such as glossy cream lacquer cabinets and extra-durable worktop, the design offers a sense of luxury without giving up on minimalism. The custom-made design of the island helps create an airy atmosphere.

B&WOOD

Simple elegance is underlined with the tones of black and white, accentuating functional design features. The starkness of the color scheme is made dynamic with stoneware countertops, unique textures of cabinet faces and warm wood details.

FOREST

An extraordinary mix of materials, linearity, and harmony induce a space that is more than just a cuisine. Bold materials like jet black cabinets, stoneware countertops, monolithic wooden cabinets, and mirror detail display mastery in the curation of various mediums.

RUSTIC

Timeless classics are redefined with contemporary details, creating a refined look. The new classic style is characterized by delicate shades of grey and beige, blending high-end marble countertops and gold-colored metal details in accessories.

CUSTHOME

The comfort and pleasure start from the functionality and organization of the spaces. Sometimes a simple kitchen that blends in with the rest of the place is all a design needs. The layout creates an easy flow within the space while keeping it simple.

BLUEWHITE

The intriguing use of the color blue changes the perception of what a kitchen should mean. A simple yet bold take on the materials creates a passionate and energetic atmosphere, bringing liveliness to simple lines.

ACCESSORIES

Practical and aesthetic solutions for the perfect home. Lazzoni works with world leaders such as Blum to provide the best fitting mechanics in the kitchen. Uniting enticing design with unparalleled functional applications.

ACCESSORIES

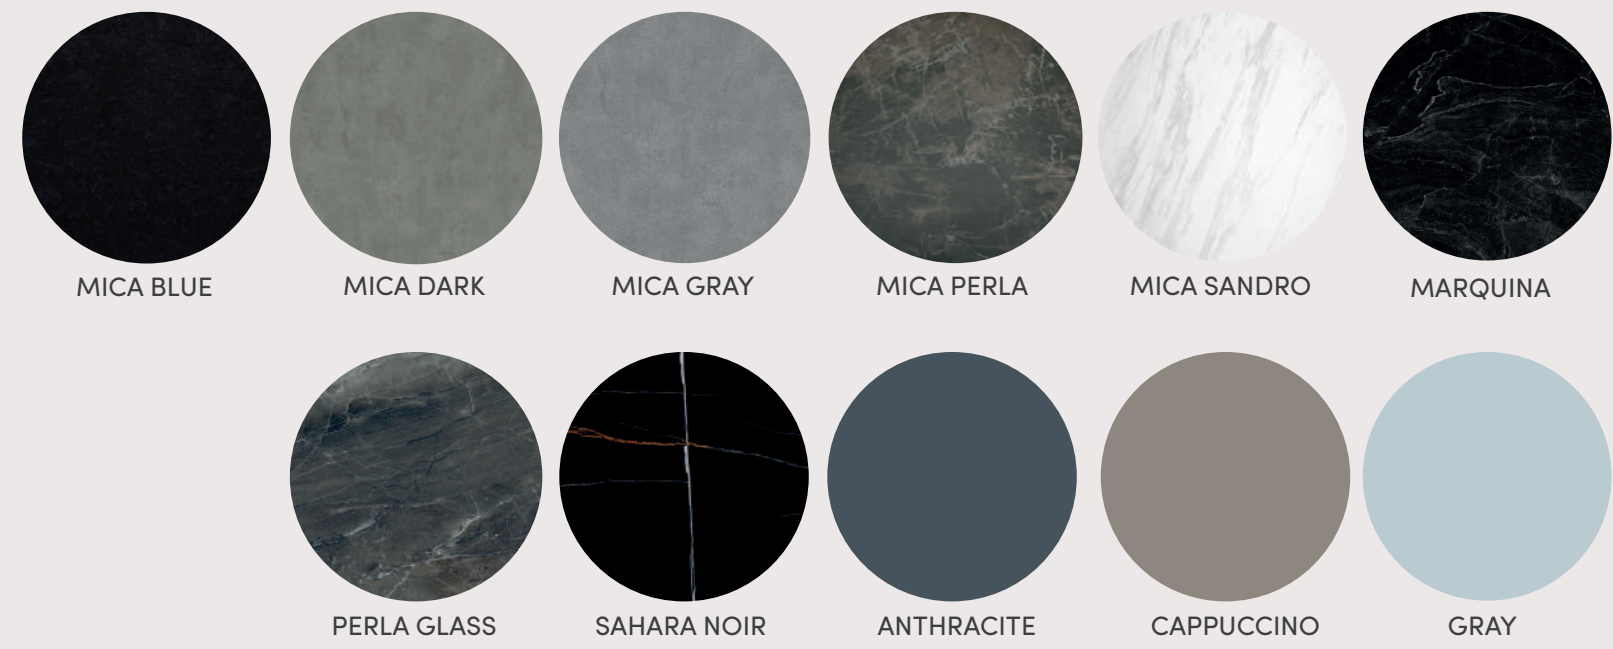

From fold and lift systems in cabinets to sliding drawers and wide-angle hinges, we offer an ideal solution for every situation. Knowing a good design only works if it can function within the user's needs.

SPECIFICATIONS OF QUARTZ COUNTERTOPS

Resists to Chemicals

Quartz countertops show resistance to abrasive effects of acids and bases. Olive oil, wine, vinegar, lemon, tea, fruit juices and strong spices are no longer trouble.

Applicable to Different Areas of Use

Quartz plates can be used on all sorts of surfaces such as counters, countertops, walls above the countertops and panel applications floor facades and steps. They can also be successfully applied to decorative designs in tables and coffee tables.

Elegant and Unique

With options of beautiful colors and textures, kitchens and bathrooms can perfectly adapt to the modern style.

Resistant to Abrasion, Scratching and Bending

Quartz, being one of the hardest minerals in nature, ensures unmatched durability and resistance with its Mohs Scale of Hardness Value of 7.

Hygienic

Quartz due to its nonporous structure, does not allow microorganisms to reproduce on its surface and it does not host microbes.

Eco - Friendly

Quartz countertops are eco-friendly designed by our product development understanding that is focused on protecting natural resources and by the high-technology used in its production, with recycled product content.

Easily Cleanable

Quartz Countertops, due to their homogenous and nonporous structure, do not absorb liquids and are stainless, preserving their day one appearance even with simple maintenance and cleaning.
