

# MONS CONSOLE

Mons Console, created by our design team by referring to our Mons product family, shines out as a stylish product that you can place in your entrance. Rounded lined structure of Mons Console, which is designed as semi-circle, allows you to place the product also in your narrow hallways. You can select the surface among all our glass and ceramic color and foot among all our metal color options based on the decoration and style of your living space. In addition to your entrance, you can use this special product that can be secured on a wall also to create a chic corner in your living room with the armchairs to be placed on both sides and with a mirror to be placed on the console.
