MONS TABLE

Mons table, which you can use in sincere small spaces and wide dining areas and in which round and oval forms are used based on your sizes, is a candidate to be one of the most special pieces of your place.

With color alternatives available for conic metal feet and warm wooden colors for tabletop that you can combine with the nobleness of surfaces with marble patterns, Mons table will accommodate itself to your style with its personalized design

Changing the atmosphere of your dining areas and take attention in every area it is in, Mons Tables are a candidate to take place in all areas, small and large, with its single-legged round form and 98 cm, 128 cm, 138 cm, 158 cm dimensions.

The most elegant complement of crowded and pleasant spaces with its wide and long structure, the new member of the Mons Series, the Two-Legged Mons Table with its 240 cm / 280 cm options and oval line will impress with its elegance in your dining areas.

Since the feet of Mons family are durable metal feet, they provide both solid and more chic appearance.

Tampered glass and lamination is also applied to the glassware and ceramic products used on its tabletop, same as all other products.

MONS MASA

MONS SIDEBOARD

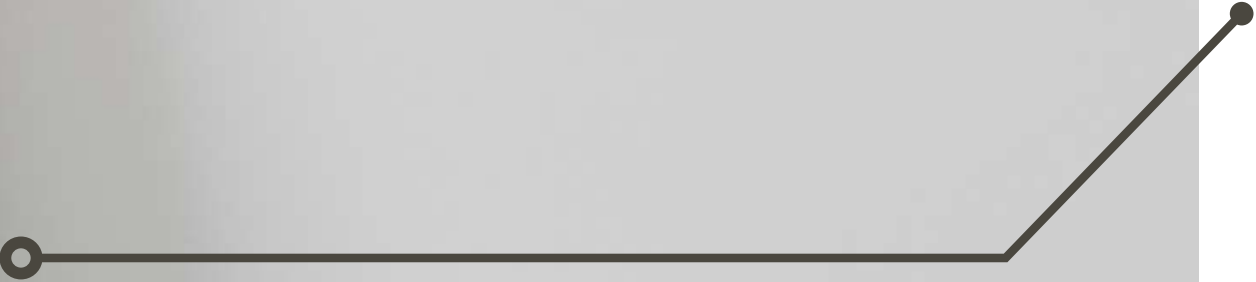

Developed by our design team with reference to our Mons product family, Mons Sideboard stands out as an elegant complementary product that you can use in your doorway.

Rounded shape of Mons Sideboard, designed as a semi-circle, allows you to position it also in your narrow corridors. You can select among our glass and ceramic colors for its surface and metal colors for its feet, based on the decoration and style of your living space, and ensure that they are applied. You can use this special product either by fixing to the wall or to have a chic corner in your living room by using a mirror that you can place on and armchairs that you can place next to it.

Mons Sideboard, in which the metal foot that was used as the table foot is being used as a half section, must be used by being fixed to the wall due to its shape.

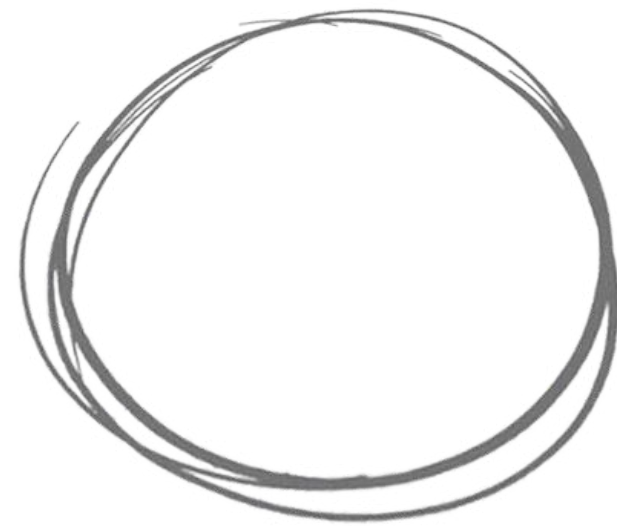

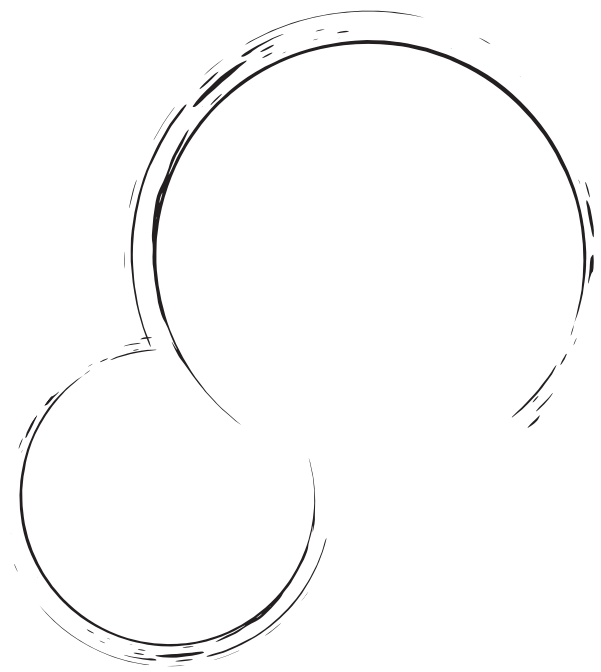

MONS COFFEE TABLE

Solid foot structure in the form of a truncated cone of Mons Coffee Tables, a member of Mons family, creates a model specific harmony that contrasts with round and amorphous surfaces used on its tabletop.

Exhibiting the perfect harmony of different pieces, Mons coffee table creates an elegant geometry with its unique design. It also allows to create personalized designs by using high and low, rounded coffee tables, and amorphous coffee table, which we can call a Lazzoni classic, either separately or together.

It is possible to select different colors and patterns for feet and surface as it is in all other products of the product range.
