

NORDIK ARMCHAIR

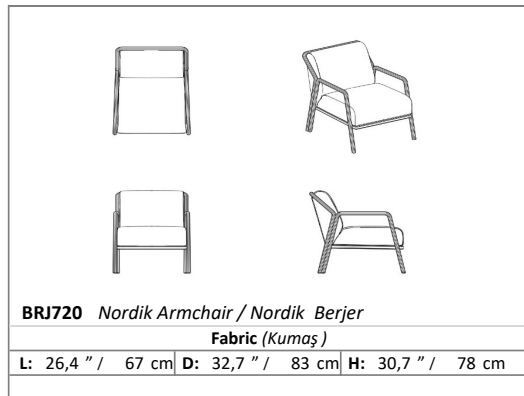

With its minimal design, rounded lines and comfortable seating, Nordik Armchair is much more than a complementary part of your living space!

Nordik, where aesthetic design meets with a high level of comfort in a single denominator, offers the opportunity to customize the product according to your personal tastes by selecting the desired fabric from among the exoskeleton color and various fabric alternatives that can be preferred in wood or lacquer. The curved structure of the back and arm presents a fresh style in addition to the maximum comfort it offers.
