

PODIA SOFA

Created by the Lazzoni design team, Podia Sofa stands out as a true representative of modern times with its creative style and unique form.

While its stylishly angled metal legs create a floaty atmosphere by subtly elevating the sofa from the ground, its curved lines and modern silhouette make it a classic beyond the traditional style. Thanks to its movable back cushions, Podia offers you the maximum level of comfort. Just what you'd need at the end of a busy day.

Choose from various colors for its metal feet to make the perfect combination with the dual upholstery. Mix and match the back and the seating upholstery by selecting from 200+ fabrics to create a dynamic style.
