# Technical Information

## BODY AND UPPER TABLE

Lacquer painted material on laminated particle board or medium-density fiberboard (MDF) is used in the body of the TV Unit.

## COVER

Lacquer painted material on laminated particle board or medium-density fiberboard (MDF) is used in the covers of the TV Unit.

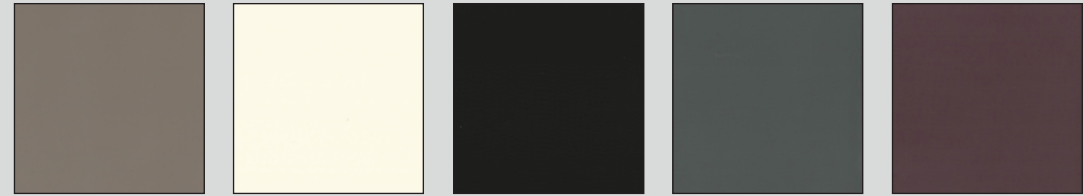

Note: If the body is selected lacquer, cover should be lacquer, too.

## LEGS

Legs of the TV module are made of specially structured iron material. It is painted with powder paint and then oven dried at 210C degrees. Legs of the table are Goffrato painted which has a grainy structure.
