
TETRA

Sideboard

This design, which is extremely elegant and aesthetic, will bring an entirely new style with its functionality! The cover structure, which is the continuation of the aesthetic form, with its original style and simple stance, will add elegance to your home while being the most important complementary element of your living space!

Technical Drawing

Technical Information

BODY

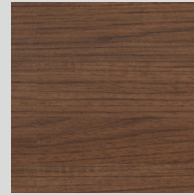

Laminated particle board is used in the body of the sideboard. Walnut, smoked and maple options are available.

LIDS

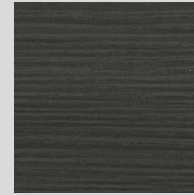

Laminated particle board is used in the body of the sideboard. Walnut, smoked and maple options are available. Blum Blumotion hinges are used on the lids of the sideboard. Lids are designed as drop downs.
