

# SAFETY DATA SHEET

TO COMPLY WITH OSHA HAZARD COMMUNICATION STANDARD 29 CFR.1910.1200 & THE GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS

## 1. Identification of the Substance/Mixture and of the Company/Undertaking

### 1.1 Product Identifier

Product Form: Color Paste

Substance Name: FIBERLAY 1203 ROBERTS GRAY PIGMENT

Product Code(s): 06212032, 06212034, 0621203P, 0621203Q, 0621203G,  
0621203F

Chemical Family: Coloring material

Synonyms: Not Available

### 1.2 Details of the Supplier of the Safety Data Sheet

Fiberlay Inc.  
1468 Northgate Blvd  
Sarasota, FL 34234  
T 206-782-0660  
F 888-782-0662  
[www.Fiberlay.com](http://www.Fiberlay.com)

### 1.3 Emergency Telephone Number

Emergency Number: CHEMTREC: Domestic - 800-424-9300

## 2. Hazards Identification

While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

### 2.1 Classification of the Substance or Mixture Not classified

#### 2.2 Label Elements

Signal Word (GHS-US):

No signal word

Hazard Statement:

No known significant effects or critical hazards

Precautionary Statements (GHS-US)

General

Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand

Prevention

Not applicable

Response:

Not applicable

Storage:

Not applicable

**Disposal:** P501-Dispose of contents and container in accordance with all local, regional, national and international regulations.

### 2.3 Other Hazards

**Hazards not otherwise classified:** None known

## 3. Composition/Information on Ingredients

### 3.1. Substances: Mixture

Component	Concentration (%)	CAS Number
This product contains no hazardous ingredients as defined under the criteria of the Federal OSHA Hazard Communications Standard 29 CFR 1910.1200		

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupation exposure limits, if available, are listed in Section 8.

## 4. First Aid Measures

### 4.1. First Aid Measures

**Inhalation:** Move the victim to a safe area as soon as possible. Allow the victim to rest in a well-ventilated area. If breathing is difficult, ~~—~~give oxygen. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention.

**Ingestion:** Wash out mouth with water. Remove dentures if any. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Seek immediate medical attention.

**Skin Contact:** In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. If irritation persists, seek medical attention. Wash contaminated clothing before reuse. Clean shoes thoroughly before reuse.

**Eye Contact:** Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Use of buffered baby shampoo will aid in removal. If irritation persists, get medical attention.

#### Most important symptoms/effects,

**Acute and Delayed:** EYE CONTACT: No known significant effects or critical hazards INHALATION: No known significant effects or critical hazards SKIN CONTACT: Repeated exposure may cause skin dryness or cracking

**Over-exposure signs/symptoms:** EYE CONTACT: No specific data INHALATION: No specific data SKIN CONTACT: No specific data INGESTION: No specific data

**Notes for physician:** Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

SEE TOXICOLOGICAL INFORMATION (SECTION 11)

## 5. Fire Fighting Measures

### EXTINGUISHING MEDIA

#### 5.1. Suitable Extinguishing Media

Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam

**5.2. Unsuitable Extinguishing Media**

Do not use water jet

**5.3. Special Hazards Arising from the Chemical**

No specific fire or explosion hazard

**5.4. Hazardous Thermal Decomposition Products**

No specific data

**5.5. Special protective actions for fire-fighters**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**5.6. Special protective equipment for fire-fighters**

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode

## 6. Accidental Release Measures

### Personal precautions, protective equipment and emergency procedures

**6.1. For non-emergency personnel**

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Do not touch or walk through spilled material. Provide adequate ventilation.

**6.2. For emergency responders**

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. See also the information in 'For non-emergency personnel'

**6.3. Environmental precautions**

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

### Methods and materials for containment and cleaning up

**6.4. Small spill**

Sweep up and place in suitable clean, dry containers for reclamation or later disposal. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment. Dispose of via a licensed waste disposal contractor.

**6.5. Large spill**

Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Use spark-proof tools and explosion-proof equipment. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: See Section 1 for emergency contact information and Section 13 for waste disposal.

## 7. Handling and Storage

### Precautions for safe handling

**7.1. Protective measures**

Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not breathe vapor or mist. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible

material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.

### 7.2. Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### 7.3. Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Eliminate all ignition sources. Segregate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Refer to the product label and/or technical data sheet for further information.

## 8. Exposure Controls/Personal Protection

### Control Parameters

#### 8.1. Occupational Exposure Limits: None

**Appropriate engineering controls:** Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

#### 8.2. Individual protection measures

**Eye/Face protection:** Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.

**Respiratory protection:** Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Hygiene measures:** Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Hand protection:** Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Body protection:** Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection:** Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## 9. Physical and Chemical Properties

### 9.1. Information on Basic Physical and Chemical Properties

<b>Physical state:</b>	Paste/Dispersion
<b>Color:</b>	Gray
<b>Odor:</b>	Mild
<b>Odor Threshold:</b>	Not established
<b>pH:</b>	Not applicable
<b>Evaporation rate:</b>	Not established
<b>Melting Point:</b>	Not available
<b>Boiling point:</b>	>400°F (>204°C)
<b>Flash point:</b>	240°F (116°C)
<b>Auto-ignition Temperature:</b>	Not available
<b>Decomposition Temperature:</b>	Not available
<b>Flammability (solid, gas):</b>	Not applicable
<b>Vapor pressure:</b>	Not established
<b>Vapor density:</b>	Not established
<b>Relative density:</b>	1.0 – 2.1 (water=1)
<b>Solubility:</b>	Negligible
<b>Partition coefficient</b>	
<b>N-Octanol/water:</b>	Not available
<b>Viscosity:</b>	Not available
<b>Molecular Weight:</b>	Not available
<b>Explosive Limits:</b>	Not available

### 9.2. Other Information

None available

## 10. Stability and Reactivity

### 10.1. Reactivity

No specific test data related to reactivity available for this product or its ingredients

### 10.2. Possibility of hazardous reactions

Under normal conditions of storage and use, hazardous reactions will not occur

### 10.3. Chemical Stability

This product is stable. Stable under recommended storage and handling conditions (see Section 7)

### 10.4. Conditions to Avoid

Not applicable

### 10.5. Incompatible Materials

No specific information is available in our database

### 10.6. Hazardous Decomposition Products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. Toxicological Information

### 11.1. Information on Toxicological Effects

**Acute toxicity:** Not available

**Irritation/Corrosion:** Not available

**Sensitization:** No data on skin sensitization due to this product

#### **Carcinogenicity**

**Classification:** None of the components are listed

**Mutagenicity:** No mutagenic effect

**Reproductive toxicity:** Not considered to be toxic to the reproductive system

**Teratogenicity:** No known effect according to our database

**Specific target organ toxicity (single exposure):** No known effect according to our database

**Specific target organ toxicity (repeated exposure):** No known effect according to our database

**Aspiration hazard:** No known effect according to our database

### **Potential acute health effects**

**Eye contact:** No known significant effects or critical hazards

**Inhalation:** No known significant effects or critical hazards

**Skin contact:** Repeated exposure may cause skin dryness or cracking

**Ingestion:** No known significant effects or critical hazards

### **Symptoms related to the physical, chemical and toxicological characteristics**

**Eye contact:** No specific data

**Inhalation:** No specific data

**Skin contact:** No specific data

**Ingestion:** No specific data

## **12. Ecological Information**

### **12.1. Toxicity**

Not available

### **12.2. Persistence and Degradability**

Not available

### **12.3. Bio-Accumulative Potential**

Not available

### **12.4. Mobility in Soil**

Not available

### **12.5. Other Adverse Effects**

No known effect according to our database

## **13. Disposal Considerations**

### **13.1. Waste Treatment Methods**

**Disposal methods:** The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid disposal. Attempt to use product completely in accordance with intended use. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

**Special precautions:** This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## **14. Transport Information**

### **14.1 UN Number**

UN-No. (DOT): Not regulated

### **14.2 UN Proper Shipping Name**

DOT Proper Shipping Name: Not regulated

DOT Hazard Class:  
Environmental hazards:  
Packing Group (DOT):  
Special precautions for user:

Not regulated  
Marine Pollutant: NO  
Not regulated  
**Transport within user's premises:** Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident of spillage.

### 14.3 Additional Information

Other Information:

US regulations require the reporting of spills when the amount exceeds the Reportable Quantity (RQ) for specific components of this material. See CERCLA in Section 15, Regulatory Information, for the Reportable Quantities

**IMDG:** No additional information

**IATA:** No additional information

## 15. Regulatory Information

### 15.1. Inventories (National and International)

<b>United States Inventory (TSCA 8b):</b>	All Components are listed or exempted.
<b>Australia:</b>	All Components are listed or exempted.
<b>Canada:</b>	All Components are listed or exempted.
<b>China:</b>	All Components are listed or exempted.
<b>Europe:</b>	All Components are listed or exempted.
<b>New Zealand:</b>	All Components are listed or exempted.
<b>Philippines:</b>	All Components are listed or exempted.
<b>Japan:</b>	Not determined
<b>Malaysia:</b>	Not determined
<b>Republic of Korea:</b>	All Components are listed or exempted.
<b>Taiwan:</b>	All Components are listed or exempted.

#### SARA 311/312

##### Composition/information on ingredients

No products were found

#### State regulations

##### California Prop. 65:

No ingredients listed

## 15. Other Information

#### HMIS III Rating

Health:

2-Moderate Hazard

Flammability:

3-Serious Hazard

Physical:

1-Slight Hazard

Personal Protection:

C

Preparation Date: 12/31/2018

Prepared by: Kevin Aber
