

# CLEMENTS RIBEIRO

Known in fashion circles for always having their fingers on the pulse, beloved husband-and-wife duo Inacio Ribeiro and Suzanne Clements have been channeling their distinctive luxe-cool vibe since they burst onto the fashion scene in the '90s. Since then, they've reinvigorated the legendary Cacharel brand, enthralled fans with their own couture label **Clements Ribeiro** and elevated cashmere to an artform.

In their newest capsule collection for Schumacher, the London-based power couple delivers exuberant, vaguely psychedelic fabrics and wallpapers—each pattern more outstanding than the next.

Wherever this daytrip takes you, enjoy the ride.
