

HAPPY TOGETHER II

Incorporating a cheerful array of fabrics, wallcoverings, and trims, our **Happy Together II** collection takes a distinctly preppy, polished vibe and injects it with a global, boho sense of chic. The worldly-yet-classic patterns and coordinates come in a range of different scales and textures for endless usability, while a plethora of attention-getting handmade details like embroidery and beading add interest and intrigue. You can easily build an entire room around these striking building blocks, from walls to windows. It's an ideal marriage of two styles that are better together!
