X

marie-chantal

Princess Marie-Chantal of Greece is the original “mompreneur,” a hardworking businesswoman who actively and gracefully balances a career in design with the demands of family. Born in London, Marie-Chantal spent her early years in Hong Kong and was educated in Switzerland and France, experiences that contributed to her sophisticated eye and extraordinary creativity. An artistic sensibility and passion for design led her to study at the New York Academy of Arts and New York University, where she expanded and honed her considerable skills.

Today, **Marie-Chantal** is a global brand that has extended beyond its original collections of luxury children's clothes to adult wear, gifts and accessories. We are thrilled to partner with the New York-based designer and mother of four on this wonderful collection of fabrics, wallpapers and trims. Each of Marie-Chantal's beautifully crafted designs has elements of whimsy and nostalgia that celebrate the innocence of childhood with sophistication and European flair.
