

SCHUMACHER CLASSICS

Over the course of its 132-year history, Schumacher has created an impressive catalog of work and now has one of the largest privately held archives in the country. As part of our annual program, we combed our archives looking for the very best designs to reproduce, and we breathed new life into classic patterns with thrillingly modern colors and approachable, easy-to-use scales. We loved them so much that we decided to introduce each as a wallpaper and fabric at the same time—a Schumacher first!
