

AN ELEVATED ETHOS

We're thrilled to announce this new **Schumacher** collection of stunning tapes, trims and fringes created with textile designer **Stephanie Seal Brown**, one of the leading lights in today's contemporary crafts scene.

The goods express Stephanie's **soulful, sophisticated** sensibility and channel a **Bauhaus-meets-Scandinavian** vibe. They also showcase Schumacher's product expertise, manufactured with the utmost care from **responsibly sourced** cottons and linens dyed with environmentally conscientious dyes.

They're at once timeless and completely of the now.

*Brown at an antique Swedish loom in her Louisville, Kentucky, studio.
Above and right, she prototypes and sketches out her designs.*

THE ART OF THE HANDSPUN

Don't miss the extraordinary linen trims by Stephanie that we already carry. This trio of patterns each comes in three widths, and all of them are woven by hand in Stephanie's studio on antique Swedish looms. They're the perfect finishing touch for today's chic, laid-back spaces.
