MEDICAL BEDS

Good Breathability, Sound Quality, Easy Clean and Easy Replace For Your Hospital Ward
Mercure deals with producing hospital equipment for medical practices. Our clients are within private healthcare, medical clinics, nursing, and care homes along with various private consumers. Our office is based in Sialkot, Pakistan. Our team works in full commitment to ensure that all instruments are in the best of the condition and are produced on time. We also supply customized instrument sets and our research & development department works consistently to create innovative techs & solution.

We are proud of our incredible heritage of being blacksmith of the elements, air, earth, water & fire. Man chose fire and with it forget his will upon world and the journey we have made so far. Our vision now has been to create a medical device business that specialized in the manufacturing of single-use surgical instruments. We have our eyes set on an even brighter and more exciting future.

Mercure has always been boundless and dynamic. The faith of our clients is a representation of our confidence and enthusiasm as we embark on an exciting journey of expansion, innovation, and growth. Our belief is to deliver high-quality medical devices that are up to the mark with world-class products.

Our promise to our valuable clients is to provide them with product of their choice at economical prices and an exceptional level of service. We look forward to connecting and developing with our clients.

Our promise is to provide our clients with product of their choice at economical prices and an exceptional level of service. We look forward to connecting and developing with our clients.

Our values give us standards by which we measure ourselves. Our values guide us and show us the way ahead. And our values are what come back to always.

We are committed to the needs of our customers, no doubt our existence is dependant on them. We ensure that none of our codes and beliefs are violated since our license to work is our ethical behavior. Every day, we look forward to doing better and smarter.

WHAT MAKES THE DIFFERENCE

Substantial Quality
Stainless steel is used. The products are adequate enough to carry out single use at a time with right grade.

Complete Protection
The products are in good condition and are sterilized. The sterilization keeps up to 3 months. There will be no risk of cross-contamination. You and your patients will be safe.

Secured with packaging
The products are packed in practical cardboard boxes which are in modular sizes. This helps in the availability of products for always being ready to use. It is a dust-free storage space for single-use instruments.

WHAT WE ARE

WHO WE ARE

OUR HERITAGE

WARD BED

Standard Features:
- Frame made of rectangular steel tube.
- Flat platform fitted with epoxy coated.
- Bed ends fitted
- Knock Down Construction.

Options:
- I.V Pole 2 or 4 hooks.
- Foldable side Rails.
- Lifting Pole.
- 12cm thick mattress with water proof and flame-retardant cover.

FOWLER BED

Standard Features:
- Main frame made of rectangular steel tube.
- Four Section mattress platform, with mild sheet strips for maximum mattress ventilation.
- Head and foot ends fitted with decorative laminated panels.
- Raising backrest section operated by hand crank mechanism.
- Easy mobility on 4" heavy duty wheels, two with independent brakes.
- KNOCK down construction.

Options:
- I.V Pole 2 or 4 hooks.
- Foldable side Rails.
- Lifting Pole.
- 12cm thick mattress with water proof and flame-retardant cover.

WARD BED

Standard Features:
- Main frame made of rectangular steel tube.
- Two Section mattress platform.
- Raising backrest section with hand crank located on foot side of the bed.
- Head and foot ends fitted with laminated panels.
- Easy mobility on 4" heavy wheels, 2 with independent brakes.

Options:
- I.V Pole 2 or 4 hooks.
- Foldable side Rails.
- Lifting Pole.
- 12cm thick mattress with water proof and flame-retardant cover.

FOWLER BED

Standard Features:
- Structure made of rectangular steel tube.
- Full Fowler Bed.
- Two Crank Operation.
- Removable head and foot panels.
- Rotary buffers for protection.
- Mobile on 5" diagonally locking castors.

Options:
- I.V Pole 2 or 4 hooks.
- Foldable side Rails.
- Lifting Pole.
- 12cm thick mattress with water proof and flame-retardant cover.
**FOWLER BED**

**Standard Features:**
- Main frame made of rectangular steel tube.
- Four mattress platform.
- Raising backrest & knee break section with hand-crank at foot end. Bed ends fitted.
- Colour-less impact absorbing buffers.
- Trendelenberg and reverse trendelenberg position can be achieved by operating the levers located at both sides of the bed.
- Head and foot ends fitted with decorative laminated panels.
- Easy mobility on 5" heavy duty wheels two with independent brakes.

**Options:**
- I.V Pole 2 or 4 hooks.
- Foldable side Rails.
- Lifting Pole.
- 12cm thick mattress with water proof and flame-retardant cover.

**Technical Specifications:**
- Mild Steel Heavy duty construction
- Three crank operation
- Removable Plastic Panels
- Urine bag holders
- Diagonally locking 5" castors
- Epoxy powder coated finish
- Mobile on 5" swivel castors

**Description:**
- Fowler Bed Hi-Low
- Art No: ICU-1105-GM
- Dimensions: 78 x 36 (L x W)
- Height Adjustment: 18" x 30"
- Loading Capacity: 150 kg

**FOWLER BED**

**Standard Features:**
- Main frame made of rectangular steel tube.
- Manual tilt facility using ratchet.
- Removable head & foot panels (Plastic).
- Rotary buffers for protection.
- Vascular position available.
- Mobile on 5" diagonally locking castors.

**SHOULDER ARM REHAB CHAIR / CHEMO BULK**

**Standard Features:**
- Multi-purpose chair for the rehabilitation of upper and lower limbs and muscular exercises.
- The swinging arm can be used from both sides.
- Resistance is applied using 5 weights of 1kg each.
- The magnitude of effort, range of movement and point of application can be controlled individually.
- The 90° backrest can be positioned horizontally, by mean of servo-assisted clutch system.
- Practical and adjustable padded rollers to secure legs, extension strap and lock clip to secure feet.

**Bulb Chemo (The Black Container):**
Bulk chemotherapy waste should be contained in RCRA containers that are DOT approved to transport this type of hazardous material (often black) and labeled as hazardous pharmaceutical waste with the correct DOT hazard class. They must be transported through hazardous waste pickup by an EPA-permitted transporter and properly managed as hazardous waste to an EPA permitted and authorized treatment facility. Sharps provides services for the compliant transport and disposal of bulk chemo and other hazardous pharmaceutical waste. Proper waste segregation is key to increasing compliance for your facility while decreasing exposure to employees and the environment. To increase proper segregation in your facility, train employees that chemotherapy waste must never be placed in red bags, sharps containers, or regular trash; and that they instead belong in labeled, color-coded containers for this specific waste.
