

FITTINGS

METAL COLLECTION

TALL END CAP

A. Mount collars to suitable blocking or cabinet panel and affix by screwing into place.

B. Place set screw in outer hole (facing set screw where it will be least visible). Slide end panel into collar.

C. Tighten set screw against the end panel to secure into place.

D. Rotate at the base to adjust foot. Size ranging $\frac{1}{4}$ " shorter and $\frac{3}{4}$ " longer than stated size.

We recommend professional installation with all of our products to ensure that all the attachments and blocking considerations are met. Weight limitations and number of fasteners should be considered by the final user and professional installer. Installers are responsible for any anti-tip fasteners or devices. Certain products are not recommended for free-standing pieces.

E. *Optional: For additional support-foot can be secured to floor. Screw nylon bushing into desired location on floor.

F. *Optional: Foot sleeve fits over nylon bushing to secure to floor.
