### Feeding Directions

Feed as the sole grain ration at the rate of 0.5 to 1.5% body wt. depending on condition, physical activity and/or production stage of horse. For horse consuming more than 0.5% wt. per day, provide feed at a minimum of twice-a-day in equal portions. This is not a complete feed. Provide a source of good quality forage in the form of hay or pasture.

Provide fresh clean water at all times. Keep feed fresh in cool, dry storage. Do not use feed that is old, molded or insect contaminated.
