Can you mix Test E and Tren in the same shot or do they need to be separated? Currently taking test every 4 days and going to start tren EOD. 04-22-2012, 07:30 AM #2.

This mix of L-Carnitine and Fucoxanthin turns body fat into usable energy for the cells and oxidizing long chain fatty acids. This makes it very unique in its ability to combat fat storage and burn stubborn body fat.

Tren is not to be used alone, as the side effects are undesirable enough with testosterone, without test and it'd be a nightmare. I could see severe depression being a big side of tren with no test in the mix. At this point my cycles are pretty much limited to primobolan, masteron, test, deca, EQ, anavar.
