PLEASE, READ BEFORE USING

WARNING

- Do NOT hit the watch main unit hardly.
- Do NOT expose it to chemicals such as benzene or thinner.
- Do NOT approach strong magnetic fields and electric shock stations.
- Please AVOID direct light or heat appliances.
- Do NOT disassemble, repair or modify it yourself.
- Dispose of packaging, batteries, and old electronic products, please sort them properly.
- Do NOT press any button underwater.
- Do NOT wear when swimming.
- Do NOT keep underwater for more than 30 minutes
- Do NOT use submerged in seawater (saltwater).

Note: This watch is IP68 certified with water-resistant capabilities. However, not following the precautions specified before could make it nonfunctional and AlphaStrong can't accept responsibility for the misuse of the device.

To turn on the Delta Watch, keep pressing the power on button for around 7 seconds until the screen wakes up. If the watch doesn't turn on, the battery may be discharged. Charge it for 30 minutes and try again after charging.

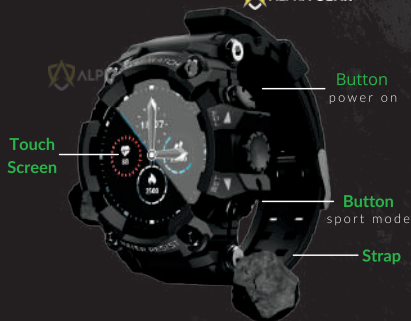

Swipe Options

- Swipe Down: Control Center
- Swipe Up: Notification Center
- Swipe Right: Function Menu
- Swipe Left: Shortcut Menu

APP Installation

Before using this device, please download and install the APP.
Scan the following QR code with your mobile phone to obtain the FitCloud Pro APP.

Follow the app instructions for details on how to log in and navigate through all the features. (Compatible System: IOS 8.4 + Android 4.4 or above)

Bluetooth Pairing

1. Turn the mobile phone's Bluetooth ON
2. Open the app and click "Device"
3. Click "Search device"

4. Select the corresponding Bluetooth name watch
5. Wait until the connection is "successfully connected".

Charging Instructions

- First, turn on the Delta Watch by keeping pressed the power on button for around 7 seconds until the screen wakes up.
- It is possible that the watch is delivered without charge. In that case, we strongly suggest to charge the watch for approximately 30 minutes before trying to turn on the watch again.

Protect your battery lifetime and your screen with the Alpha Charge Cable and the Screen protector.

Made exclusively for Delta Watch.

- The charger cable is magnetic, make sure you are connecting it properly through the right side.
- First, connect the charging cable to the charging contacts. Then, connect the USB side to the USB Plug or Adapter.
- The required input should be 5V/1A or 5V/2A.
