No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.

No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### Hazardous components

| Component                 | CAS-No.  |
|---------------------------|----------|
| Cyclopentanone, 2-heptyl- | 137-03-1 |

### SECTION 4. FIRST AID MEASURES

#### First aid procedures

| Inhalation   | : | Remove from exposure site to fresh air and keep at rest. If victim is<br>unconscious, remove foreign bodies from the mouth. If victim has<br>stopped breathing, give artificial respiration. Obtain medical advice. |
|--------------|---|---|
| Skin contact | : | Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.  |
| Eye contact  | : | Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.  |
| Ingestion    | : | Rinse mouth with water and obtain medical advice.   |

### SECTION 5. FIREFIGHTING MEASURES

| Flammable properties<br>Flash point                            | : > 201 °F (> 94 °C) |  |
|--|----------------------|--|

| Product   | FLEURAMONE         |  |       |  |
|---|--------------------|--|-------|--|
| Print Date  | 06/10/2020         |  | 3 (8) |  |
| Suitable extinguishing media                          | : Use water spray, | , dry chemical, carbon dioxide or appropriate f  | oam.  |  |
| Protective equipment and precautions for firefighters |                    |  |       |  |
| Special protective equipment f firefighters           | protective clothi  | proved self-contained breathing apparatus and<br>ng when fighting fires involving chemicals. Us<br>pol containers exposed to fire. |       |  |

### SECTION 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions                                 | : | Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.  |
|--|---|---|
| Environmental precautions                            | : | Keep away from drains, surface- and groundwater and soil.   |
| Methods for containment /<br>Methods for cleaning up | : | Clean up spillage promptly. Remove ignition sources. Provide<br>adequate ventilation. Avoid excessive inhalation of vapours. Gross<br>spillages should be contained by use of sand or inert powder and<br>disposed of according to the local regulations. |

### SECTION 7. HANDLING AND STORAGE

| Handling             | <ul> <li>Avoid excessive inhalation of concentrated vapors. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before re-use.</li> <li>If appropriate, procedures used during the handling of this material should also be used when cleaning equipment or removing residual</li> </ul> |
|----------------------|---|
|                      | chemicals from tanks or other containers, especially when steam or<br>hot water is used, as this may increase vapor concentrations in the<br>workplace air. Where chemicals are openly handled, access should be<br>restricted to properly trained employees.<br>Keep all heated processes at the lowest necessary temperature in   |

| Advice on protection against and explosion | fire :   | order to minimize emissions of volatile chemicals in:<br>: Keep away from ignition sources and naked flame.    | to the air. |       |
| Requirements for storage area containers   | as and : | : Store in a cool, dry, ventilated area away from heat s containers upright and tightly closed when not in use |             | eep   |

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Components with workplace control parameters

| Engineering measures          |  |
|-------------------------------|--|
| Engineering measures          | : Where feasible, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant. Where feasible, use closed systems to transfer and process this material   |
| Personal protective equipment |  |
| Eye protection                | : Use tight-fitting goggles, face shield or safety glasses with side shields if eye contact might occur.   |
| Hand protection               | : Avoid skin contact. Use chemically resistant gloves.   |
| Respiratory protection        | <ul> <li>Use local exhaust ventilation around open tanks and other open<br/>sources of potential exposures in order to avoid excessive inhalation,<br/>including places where this material is openly weighed or measured.<br/>In addition, use general dilution ventilation of the work area to<br/>eliminate or reduce possible worker exposures.<br/>No respiratory protection is required during normal operations in a<br/>workplace where engineering controls such as adequate ventilation,<br/>etc. are sufficient.</li> </ul> |
|                               | If engineering controls and safe work practices are not sufficient, an<br>approved, properly fitted respirator with organic vapor cartridges or<br>canisters and particulate filters should be used:   |
|                               | a)while engineering controls and appropriate safe work practices   |

### SECTION 16. OTHER INFORMATION

#### **Further information**

The information in this MSDS was obtained from current and reliable sources. However the data is provided without any warrant, expressed or implied, regarding its correctness or accuracy. Since the use, handling, storage and disposal of this product are beyond IFF control, it is the responsibility of the user both to determine safe conditions for the use of this product and to assume liability of loss, damage, or expense arising out of the product's improper use. No warranty expressed or implied regarding the product described herein shall be created by or inferred from any statement or omission in this MSDS. Various Federal, State or Provincial agencies may have specific regulations concerning the transportation, handling, storage, use, or disposal of this product which may not be reflected in this MSDS. The user should review these regulations to ensure full compliance.
