## 9. Trouble Shooting

### **Q1: Is the video doorbell powered by battery?**

**A1:** Yes, there is a Li-ion battery built-in. Thanks to the low power consumption technology, a full charge lasts for more than 2-3 months in our lab test environment. (Lab test condition: 10 events per day, 15 seconds video recording per event)

### **Q2: Does it support legacy hardwire power source?**

**A2:** No, it doesn't. If you need longer battery endurance, suggest that adding a solar battery charger for your doorbell, if only there is sunshine in your doorbell location. You can contact our after-sale service to know where to buy.

### **Q3: Does it work with existing mechanical chime?**

**A3:** No. The doorbell is only compatible with our wireless chime, you can purchase it in our store. If you have an existing indoor chime, please use the provided jumper to bypass the existing chime, so as to provide sufficient power to the new video doorbell. And our wireless chime is 100% wireless, you can place it almost everywhere you like. The transmission distance in open space is more than 100 meters (328 feet).

### **Q4: How many wireless chimes can be added to the doorbell?**

**A4:** You can add as many wireless chimes as your wish on one video doorbell.

### **Q5: Does it support customized Motion Detection Zones.**

**A5:** Yes it does. You can customize the detection zone in the doorbell settings.

### **Q6: Does the doorbell support cloud storage?**

**A6:** Your doorbell support local video storage by TF card . And you can also activate the cloud storage service in the App. There is a 7-day-free cloud recording trial service.
