MADE IN USA

Bruno engineers and manufactures our stairlifts in Wisconsin, USA. Each curved rail is carefully crafted by hand to ensure an optimal fit and ride. We take pride in our artisan touch!

CUSTOM FIT. LUXURY COMFORT.

Luxury Styling. Plush, generously-sized seat with adjustable seat height, arm width and footrest height provides maximum comfort.

Custom Rail. Beautiful, handmade rail delivers a precision fit and smooth ride while the covered gear rack gives a clean appearance.

Easy Operation. Armrest control operates the stairlift up and down. Two wireless remote controls are also included.

Space Saving. Vertical rail leaves maximum open space on steps. Fold the arms, seat and footrest when not in use to save even more space.

Safe. Seat swivels up to 90° away from steps, then locks in place for safe exit. Seat belt and obstruction sensors ensure safety.

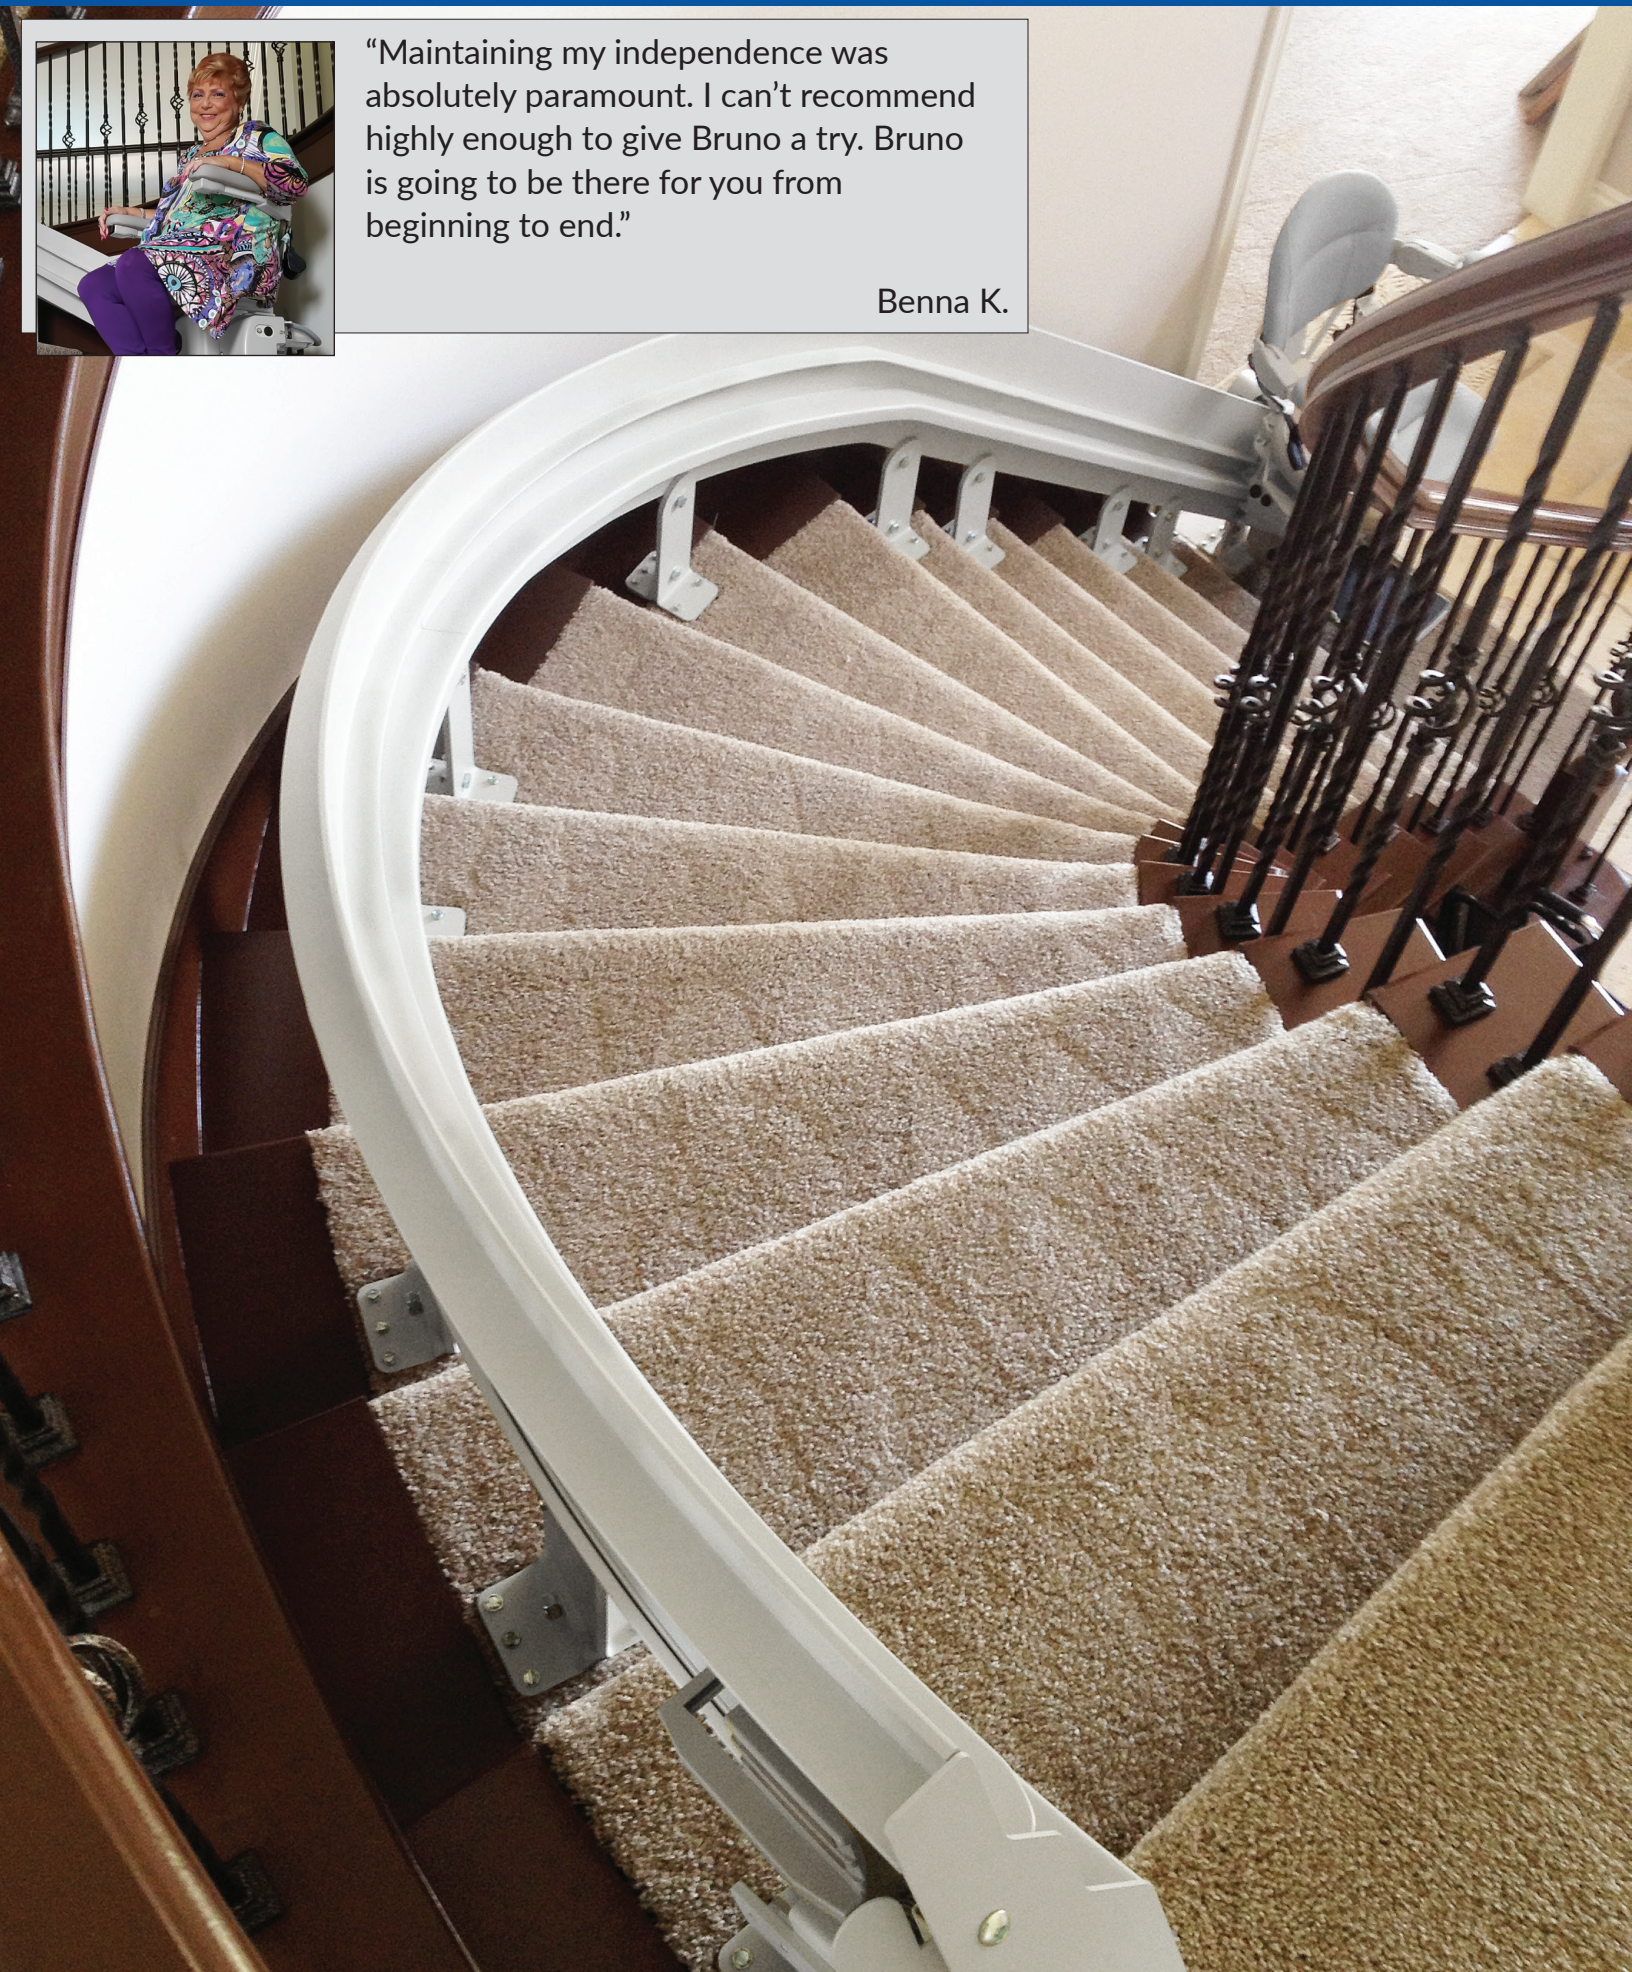

Dependable. Battery-powered operation ensures performance, even in the event of a power outage.

AVAILABLE OPTIONS

Add a park position to extend the seat away from the staircase for increased safety or to stow the unit out of sight. A mid-park charging position option is ideal for middle landings.

Convert to a power swivel, and the chair will automatically rotate with the push of the armrest control. Further simplify your Elite with a power folding footrest. Fold the seat and the footrest automatically folds, too. Great for people with back issues!

Wider seat, longer footrest and multiple colors also available.
