World's First Game- Guided Nebulizer

BRIUTCARE
WORLD'S FIRST
GAME GUIDED NEBULIZER

Patented I.A.D Technology

We've created a smart respiratory sensor which allows the nebulizer to atomize medicine while inhaling, and stop atomizing while exhaling.

App Game Guided Nebulization

Children love games but usually don't enjoy the nebulization process, so we created ours to assist parents and children improve the nebulization experience!

Ultrafine Particles

Thanks to our patented 'Vibration Mesh Technology', 80% of particles are smaller than $5\mu\text{m}$, with a MMAD of only $2.2\mu\text{m}$. Thus, less dosage time with better efficiency is realized!

World's first personalized nebulization rate available!

We make it possible for patients to adjust the nebulization rate and choose the best model and treatment for themselves.

Super-Silent Effect

Working noise less than 35 dB.

Automatically shutdown when no liquid detected.

< 40dB, even quieter than whisper

Rechargeable

Embedded lithium battery with USB charging.

4 hours' work

One-Button Operation

Simple and easy to use for all consumers.

Adjustable nebulization rate

0.3ml/min, 0.4ml/min, 0.5ml/min

Powerful & Portable

4-hour long nebulization.

Pocket size, easy to carry around.

100g, lighter than a smartphone

A New Generation Smart Mesh Nebulizer

The Briutcare Smart Mesh Nebulizer is the most efficient and easy to use nebulizer in the market today that aims to change the way you breathe.

TECHNICAL SPECIFICATIONS

Particle size: 80% of particles <math><5\mu\text{m}</math> size

MMAD:

Dimensions: 50 mm x 74 mm x 111 mm

Weight: 100.5 g

Volume: 8 ml
