SCHOOL SEATING

CHOOSING CLASSROOM SEATING

- School seating impacts students' learning experiences
- Desk and chair arrangement affects interaction, collaboration, comfort, and engagement
- Teachers and administrators must consider age, size, classroom layout, and teaching style when selecting seating options
- Proper seating arrangements can create a positive and effective learning environment
- A positive environment fosters student success and achievement

SEATING FOR STAFF

- School office seating impacts staff productivity and well-being
- Comfortable and functional seating can promote good posture, reduce discomfort and fatigue, and enhance focus and concentration
- School administrators must consider staff needs, preferences, physical layout, and space constraints when selecting office seating options
- Well-designed office seating arrangements can improve work efficiency, staff morale, and overall job satisfaction
- Providing comfortable and ergonomic seating options is a worthwhile investment for schools to support their administrative staff.

- Choose your size, frame colour and worktop finish
- 80mm in cable port in larger desks
- Coordinating storage options available

ERGOPLAN DESKS

Choosing the correct school furniture holds great significance in creating an optimal learning environment. The right furniture selection can greatly impact students' comfort, posture, and overall well-being, ultimately enhancing their focus and concentration during classes.

Moreover, well-designed furniture can foster collaboration and active engagement, facilitating group discussions and interactive learning experiences. Adequate storage spaces and organisational features in furniture contribute to a neat and clutter-free classroom, promoting a conducive atmosphere for learning.

By prioritising the importance of choosing the correct school furniture, educators can create an environment that supports students' physical and intellectual development, ultimately leading to enhanced educational outcomes.

ENVIRONMENTAL IMPACT STATEMENT

At Office Furniture First we are committed to a goal of environmental sustainability. Our approach, grounded in the principles of kaitiakitanga, drives us to protect and restore our environment while delivering high-quality office furniture solutions to our customers.

We actively work with suppliers who share our commitment to environmental conservation, and source products with a focus on environmental sustainability. We look for products with certification such as the “Greenguard” award, or are certified as recyclable.

By integrating kaitiakitanga into the workplace, we are creating a culture that values and respects the environment, promotes sustainable practices, and contributes to a healthier planet for future generations.

We use recycling bins in our office to help reduce landfill, and take our recycling to our local facilities, such as the Junction recycling centre, where we can ensure we are reducing waste. Here at Office Furniture First we also track our carbon emissions, through Toitū Carbon Assess, to find ways in which we can reduce our carbon footprint.

At Office Furniture First, we take pride in providing top-quality education furniture while creating inspiring learning environments. We are dedicated to enhancing spaces with innovative, durable, and stylish furniture solutions.

When you purchase from Office Furniture First, you can be assured that we will provide quality service and furniture. We are committed to sourcing our furniture from like minded suppliers, prioritising environmentally conscious practices to ensure a sustainable and eco-friendly approach to education.

Experience the difference with Office Furniture First's School Furniture – We fit furniture to fit you.
