Lou Higuera, FNP

Lou Higuera is a NASHVILLE native and board-certified nurse practitioner with a passion for finding and treating the root causes of chronic illness.

I have been recommending collagen to clients for quite a while. When I was introduced to One Scoop Wonder[®], I could not believe the amount and quality of ingredients in one product. I see very sick people with chronic illness who need nutritional support on many levels. This product prevents the need to purchase a separate vitamin and several other supplements. The combo of vitamins, minerals, collagens, stress support, liver support, adrenal and immune support, probiotics and superfoods is not one I've found in any other product. At its price point, it's more economical than purchasing a multitude of other products to get the same level of nutrients. There are no artificial sweeteners and the taste is surprisingly pleasant! I have recommended a vast amount of products to people over the years, but this is one of the few I get really excited about! Thanks Mason Grove for making a perfect product!"

Beet Root Powder is the power packed ingredient that gives our Berry Collagen+ its vibrant coloring!

BENEFITS

Offering an array of vitamins and minerals, beet root powder also has heart loving benefits and may help enhance athletic performance as well as balance blood sugar.

TESTIMONIAL

Happy Joints!

After 13 years struggling with joint inflammation, I was desperate to try anything! After 10 days my joints felt so much better! Collagen+ is packed full of nutrients my body needed! So happy to have found it!

JODI MCDONALD

TESTIMONIAL

Collagen+ from Mason Grove has by far been the best for my body. I can feel the difference not only in my joint health, in my digestive health, but also in my skin and nails along with my energy! This has been a game changer! Cannot recommend this enough!
