

TEAM LINE

Canada 2022-2024

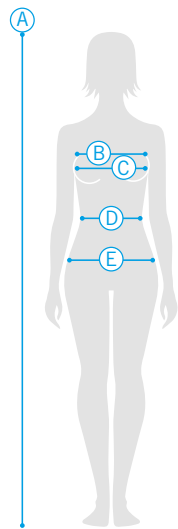

TECHNOLOGIES

 **100% POLYESTER, of which 51% to 53% is recycled.**

MaxLife ECO is the evolution of arena's premium fabric dedicated to regular and intensive swimmers, delivering maximum resistance to chlorinated water. While keeping the same benefits as the standard fibres used in the original MaxLife, its new ecological version features more than 50% recycled polyester, obtained from PET Bottles and produced with a circular approach that helps saving energy consumption, CO2 emissions and water usage during the process.

This highly sustainable fabric is the result of almost one year development and several 200 lab trials. Its construction is based on specifically engineered PE yarns, that provides very good elasticity and combines excellent fit with power retention performance. Additional features include quick drying and 50+ UV protection rate.

WATERPOLO Special order only

A man and a woman are featured in a gym setting. The man, on the left, is wearing a light grey short-sleeved athletic t-shirt and blue shorts, both with the 'arena' logo. He is looking upwards and to the right. The woman, on the right, is wearing a white short-sleeved polo shirt and black shorts, also with the 'arena' logo. She is sitting on a piece of gym equipment and looking upwards and to the right. The background consists of wooden panels and black metal frames of gym equipment.

SPORTS-WEAR

TECHNOLOGIES

MAXDRY ECO 100% recycled polyester, or 83% recycled polyester + 17% elastane, 63% recycled polyester + 25% polyester + 12% elastane

MaxDry ECO is the sustainable evolution of arena's exclusive technology for moisture management, that facilitates uni-directional sweat wicking: the inner side instantly absorbs moisture and pushes it to the external surface for fast evaporation, to deliver comfort and a dry feeling. Made with recycled polyester obtained from PET bottles, MaxDry Eco is also a guarantee of reduced energy consumption, CO2 emission and water usage during its production process.

MAXDRY The ultimate Dry Experience

Unique channel structure created for superior moisture management. The signature inner linings instantly absorb moisture and push through the channels to the surface layer for fast evaporation. Unique vertical moisture transport channels facilitate uni-directional sweat wicking.

MADE IN GREEN

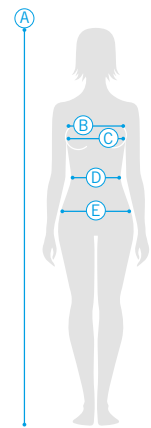

MADE IN GREEN is a traceable product certification for all kinds of textiles products that have been manufactured in environmentally friendly facilities under safe and socially responsible working conditions.

The **MADE IN GREEN** certification also reassures consumers that the textile product is made of materials that have been tested for harmful substances.
