

Technical Data Sheet

EPA Reg. No. 10324-81-7546 EPA Est. No. 7546-WI-1

### **FEATURES**

- Concentrated formula
- · Wide range sanitizer
- Multiple use product

#### **BENEFITS**

- Low use rate
- Effective at 150-400 ppm.
- Kills Rubella virus, Avian Influenza H5N1 virus and HIV-1 (AIDS)

# **RECOMMENDED USES**

- General Disinfectant Hospital Disinfectant Non-Food Contact Sanitizer Food-Contact Sanitizer Deodorizer Mildewstat
- Virucide
   Cleaner

## **SPECIFICATIONS**

Color: YellowpH use dilution: 7.0-8.0Scent/Odor: No scentPhosphorus content: 0.0%Character: Clear, non-viscous liquidApprovals: cRc, EPA

Foam : Low

# **IMPORTANT**

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.

# PRODUCT DIRECTIONS EQUIPMENT TO USE

Jug pump, wall pump, faucet feeder or recommended automatic dispensing system, Spray bottle or pail and mop, sponge, cleaning cloth, bowl mop, scrub brush, rubber gloves and eye protection.

#### **DIRECTIONS TO USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**SANITIZER:** Prior to application, remove gross food particles and soil by a pre-flush or pre-scrape and when necessary, presoak. Then thoroughly wash or flush objects with a good detergent or compatible cleaner, followed by a potable water rinse before applications of the sanitizing solution. Immerse pre-cleaned glassware, dishes, silverware, cooking utensils and other similarly sized food processing equipment in a solution of 1-2.67 ounces of this product per 4 gallons of water (150-400 ppm active quat or equipment use dilution) for at least 1 minute. For articles too large for immersing, apply a use solution of 150-400 ppm active quat to sanitize hard, non-porous food contact surfaces with a brush, cloth, mop, sponge, auto scrubber or coarse trigger spray device until thoroughly wetted for 1 minute. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Allow sanitized surfaces to adequately drain and then air dry before contact with food. Do not rinse. Prepare a fresh solution daily or when visibly dirty. **DISINFECTANT:** Pre-clean visibly soiled areas. Apply use solution of 3.5 ounces of this product per 4.5 gallons of water to disinfect hard, non-porous surfaces. Treated surfaces must remain wet for 10 minutes. Rinse with potable water after use on surfaces that come in contact with food. Allow to air dry. Prepare a fresh solution daily or when visibly dirty. **LAUNDRY BACTERIOSTAT:** Use 13.3 ounces of this product per 100 pounds of fabric (dry weight) (or equivalent use dilution). Dilute the appropriate amount of this product in 1-2 gallons of water, and then add solution to the wash wheel at the beginning of the final rinse cycle. A minimum rinse cycle time of 5 minutes is required.

## **PACKAGING**

This product is available in 1/1.5 gallon bottles (5497407) and 5 gallon pails (101101062).

Check with U S Chemical regarding availability and product registration status in your state. See product Reference Sheet or container label for more information.
