

COLOUR BOMB KEY INGREDIENTS

ALOE VERA

Aloe Vera contains an enzyme that helps prevent scalp irritation. In addition, you find more than 20 moisturising minerals and vitamins in this efficient plant which add lots of shine to the hair.

PANTHENOL

Panthenol, also known as the previtamin B5, has nourishing and moisturising benefits for the hair. It also protects the hair against humidity.

RICE PROTEIN

Rice Protein penetrates the hair strand and provides moisture and strength to damaged hair. This makes combing of the hair easier.

• NO PPD

• NO RESORCINOL

• NO MEA

COLOUR BOMB

COLOUR BOMB IS A DIRECT COLOUR WITH A TREATMENT EFFECT

Work creatively in your salon with Colour Bomb when using it for creating effects or when making a pre pigmentation. Colour Bomb is also ideal for your customers to buy and use at home to maintain their beautiful hair colour in between salon treatments.

PRO TIPS BEFORE STARTING:

COLOUR BOMB

BE CAREFUL EMULSIFYING COLOUR BOMB FOR TOO LONG AS IT MAY DAMAGE THE COLOUR PIGMENTS AND LOSE THE COLOUR INTENSITY.

ALWAYS USE GLOVES AS THE COLOUR PIGMENTS ARE VERY EFFICIENT.

3

FOR AN INTENSE COLOUR RESULT, ADD COLOUR BOMB IN DRY HAIR.

THE STRAND TESTS SHOW THE RESULTS ON A FULLY BLEACH HAIR .

DIRECT COLOUR

The colours may be used as a colour refresh or as a semi colour.

This allows you to be creative and give your clients a long lasting colour result.

COLOUR BOMB

PRE-PIGMENTATION

Why prepigmentation?

Pre-pigmentation is used when you want to go very dark on light or bleached hair.

Without a pre-pigmentation, the hair may lose colour fast, seem darker or may turn green or grey-ish. LOW – MEDIUM POROSITY NEUTRAL TO COLD RESULT

HIGH POROSITY MORE THAN 3 LEVELS DOWN // WARM RESULT

LEVEL 8 - 10 LEVEL 5 - 7 LEVEL 1 - 4 LIGHT HONEY **933** SPICY CURRY **744** FIRE RED **766**

INTENSIFYING COLOUR BOMB

1 USAGE OF SEMI COLOUR

1 Divide the hair into small sections and add the colour with a brush.

2 Make sure to cover the hair efficiently by using a sufficient amount of colour.

1.1 SEMI COLOUR

For an intense colour or a great colour change, we recommend bleaching the hair beforehand. Remember to cleanse the hair with shampoo after bleaching to make the hair ready for Colour Bomb.

- Apply Colour Bomb to clean, damp or dry hair. Process in 20 minutes.
- Rinse the hair thoroughly with cold water. Do not use shampoo.
- Do not shampoo the hair for 24 hours following the colour application.

1.2 INTENSE NIOPHLEX SEMI COLOUR

For an intense and longlasting semi colour, you may mix Colour Bomb with **Niophlex**.

- Add 1g Niophlex NO. 01 per 10g Colour Bomb.
- Mix and add on clean, dry hair. Process in 20-40 minutes.
- Rinse the hair thoroughly with cold water. Do not use shampoo.
- Add Niophlex NO. 02. Process in 20-40 minutes.
- Do not shampoo the hair for 24 hours following the colour application.

COLOUR REFRESH

May be used for refreshing already coloured hair

- Cleanse the hair with shampoo.
 Do not use conditioner.
- Add a sufficient amount of Colour Bomb from roots to ends.
- Process in 3 15 minutes.
- Rinse with water.

BE CREATIVE WITH COLOUR BOMB

Choose between 17 beautiful colours or create your own by mixing the colours. Use Colour Bomb as a direct colour, semi colour or as a colour refresher.

IMPORTANT! Using the recipes below, you must start at a level 10 and mix 1:1 - otherwise the colour will not turn out perfectly.
