

### WARNING!

Be sure electrical power is OFF before and during installation or maintenance. The luminaire must be installed by a qualified electrician, in accordance with all applicable local codes.

Ensure that the rated luminaire voltage requirements are compatible with the available mains supply in which it will be installed. All LEDs are included in your lamp. Never touch the LED surface with your bare hands as this may reduce the life of your LED. Do not alter, relocate or remove any electrical component.

Line: Clean  
 Family: Wall Lamp  
 Description: Balance Accord Wall Lamp 4194/4195/4196

Material: Natural Wood Veneer, MDF.  
 Weight:

Read carefully all the assembling instructions below and turn OFF energy power before starting the installation.

01 Remove the protecting package from the pieces taking care to not harm any parts with cutting surfaces or objects. Lay the parts of the fixture on some horizontal surface in order to connect them, if needed use the protecting package to soften the surface and protect the parts from getting scratched or harmed.

02 Once the protecting packages are removed, position the wall lamp in the desired point assuring about the correct orientation of the fixture.

03 With the installation location defined, use the structural base (B) as a template and make the marks on the wall where the holes must be done in order to fix the base.

04 With the markings done, use 8mm drills and make the holes on the wall, inserting the plastic bushing.

#### MAKING ELECTRICAL CONNECTIONS

05 Pass the energy cable through the junction box cover (C) and make the electrical connections according with all applicable local codes. Insert the excess energy cable inside of the junction box.

Fix the junction box cover (C) on the junction box using the provided screws (S1).

06 Screw the structural base (B) on the plastic bushing fixed in the wall using the provided screws (S2)

07 Fit the outer base of the wall lamp in the structural base.

08 Fix both bases fastening the provided screw (S3) until it is secure and stable.

Turn on energy power, your luminaire is ready for use.

#### USER GUIDE

Use the hand switch located on the base of the fixture to turn the wall lamp ON and OFF.

Take care to not apply excessive strength moving the flexible stem, preserving the fixture's integrity.

It is recommended the use of a MR-11 LED bulb compatible with the GU-10 socket.

#### PROVIDED SCREWS
