FOSCARINI

## DESCRIPTION

Bahia, a name that recalls white beaches, sunny skies and the elegance of Bossa Nova, is a captivating wall and ceiling light with an extraordinary design that showcases innovative interplay of light and shade. The light has a seductive form that recalls the aerial vision of an archipelago, with radiating light that subtly emphasizes its topographic nature. In the mini version the largest disc has been removed. The LED version is the natural development of Bahia. Foscarini has developed and engineered the LEDs in this model and managed to improve the magic of the light. In the mini version the largest disc has been removed. Bahia mini has many possibilities for use in both the domestic and contract sectors, especially in the low energy consumption and minimal maintenance LED version.

## MATERIALS

injection moulded polycarbonate

## COLORS

White

# Bahia mini, parete

technical details

FOSCARINI

Wall and ceiling lamp with reflected and diffused light. Consisting of two matt white injection moulded polycarbonate egg-shaped plates fitted together asymmetrically. The largest plate works as the wall mounting plate, and the central one conceals the lighting technology part.

## LUCIDI, PEVERE

Following initial training on the Milanese design scene, Paolo Lucidi and Luca Pevere set up their own studio in Udine, engaged in a constant challenge to create new product types, in search of unprecedented materials and technologies.

Synergy with Foscarini research led to the birth of the Aplomb lamp collection, comprising shapes balanced between architecture and design made with an exclusive cement paste; Bahia, a sophisticated graphic sign and a bright game of lights and shadows; Lake, a coloured spot with an organic and asymmetric shape.
