DESCRIPTION

The Unbound Collection fulfils Space Copenhagen's ambition to create a practical but poetic lantern with a distinctive sculptural character. The teardrop-shaped gray marble base of the series acts as an anchor, embodying stillness and weight. A rotating white linen or natural canvas shade with the same shape appears weightless, vibrant and flighty in contrast, and contains dimmable LEDs arrayed around the antique brass mast. The Unbound Lamp was conceived to cast a spacious atmospheric light and create a gentle 'Zen-like' ambience.
