

## Micene T Table Lamp

Toso, Massari & Associates, 1991

Micene Table lamp has been an icon of the Leucos collection since its design debut in 1991. It was designed by Toso, Massari & Associates to push the limits of what a lamp diffuser could be. The diffuser plays with scale and is handmade with a traditional Venetian glass blowing technique called *incamiciato*, where a *Maestro* glass blower uses multiple layers of glass—each of different transparencies and properties—to create a rich satin white finish that is strong and provides perfect diffused light in your space. A stunning Carrara marble base and titanium frame lifts the shade into the air above it and adds to the luxury and quality of this large-scale table lamp, making it a visual feast.
