

INSTALLATION INSTRUCTIONS

Item#2332-77(Convertible Lamps for Pendant) (Rev. 2017/08/16)

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

PREPARATION (Fig. 3)

1. Shut off the power at the fuse box or circuit breaker. If necessary, remove the old fixture, including the mounting hardware.
2. Carefully remove the fixture from the carton and check that all parts are included as shown in the illustration.
3. Thread screw (F) into the key washer (G) and metal trim (H). Respectively, place two arms (E) onto the hole which on the metal trim (H) and secure by using screw (F) and key washer (G).
4. Slope balance arm (E) as shown onto the hole which on the metal trim (H), then secure by using screw (F) and key washer (G).
5. Put the glass shade (D) into the metal trim (H). Then pull the tilted arm (E) up like the other two arms (E).
6. Install light bulbs (C) (not included) in accordance with the fixture's specification. **(DO NOT EXCEED THE MAXIMUM WATTAGE RATING!) (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!).**
7. Connect one side of hanger rods (B) to loop assembly (A) and the other side to arms (E).

MOUNTING THE FIXTURE (Fig. 1)

8. Thread the nipple into the ceiling loop until snug.
9. Thread the other end of the nipple into the crossbar until snug. Note: The length of the nipple into the crossbar may be adjusted if necessary.
10. Place the lock washer and hex nut over the end of nipple protruding through crossbar. Then thread the hex nut onto the nipple until snug.
11. Take this crossbar assembly and mount it to ceiling outlet box using the mounting screws (Size: #8-32N*L0.5"). The side of crossbar marked "GND" must face out.
12. Use proper chain pliers to open one end link of the chain and connect to the fixture loop. Then close the link.
13. By measuring, determine the correct number of links needed for the desired hanging height. Using the chain pliers, disconnect and discard the excess chain.
14. Carefully lace the fixture wires through the chain.
15. Slip the lock collar and canopy over the chain and allow them to rest on the fixture body.
16. Open the other end of the chain and attach it to the ceiling loop. Then close the chain.
17. Carefully feed the fixture wires through the ceiling loop and nipple and pull tight.

CONNECTING THE WIRES (Fig. 2)

18. At this point, connect the electrical wires as shown in Fig. 2 making sure that all wire connectors are secured. If your outlet box has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the fixture's ground wire directly to the crossbar using the green screw provided.
19. Tuck the wire connections neatly into the ceiling outlet box and raise the canopy to the ceiling. Thread the lock collar to the ceiling loop to secure the canopy against the ceiling.

Your installation is now complete. Return power to the junction box and test the fixture.

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

ASSEMBLING THE FIXTURE (Fig. 4)

1. Shut off the power at the fuse box or circuit breaker. If necessary, remove the old fixture, including the mounting hardware.
2. Carefully remove the fixture from the carton and check that all parts are included as shown in the illustration.
3. Secure the rod and canopy assembly (P) onto the nipple located on the top of socket assembly (O).
4. Thread screws (I) into the pre-drilled holes in the circular strap (J) spaced the same distance apart as the holes in the canopy (L).
5. Attach the circular strap (J) to the Junction box using mounting screws (K) (Size: #8-32N*L0.5"). The side of the circular strap marked "GND" must face out.

CONNECTING THE WIRES (Fig. 2)

6. At this point, connect the electrical wires as shown in figure 3, making sure that all wire connectors are secured. If your outlet has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the fixture's ground wire directly to the circular strap using the green screw provided.
7. Tuck the wire connectors neatly into the ceiling Junction Box and then raise the canopy all the way to the ceiling.

COMPLETING THE INSTALLATION (Fig. 4)

8. Thread screws (I) into canopy (L), and secure with knurled knobs (M).
9. Thread screw (F) into the key washer (G) and metal trim (H). Respectively, place two arms (E) onto the hole which on the metal trim (H) and secure by using screw (F) and key washer (G).
10. Slope balance arm (E) as shown onto the hole which on the metal trim (H), then secure by using screw (F) and key washer (G).
11. Put the glass shade (D) into the metal trim (H). Then pull the tilted arm (E) up like the other two arms (E).
12. Install light bulbs (C) (not included) in accordance with the fixture's specification. (**DO NOT EXCEED THE MAXIMUM WATTAGE RATING!**) (**NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!**).
13. Connect one side of hanger rods (N) to loop assembly (O) and the other side to arms (E).

Your installation is now complete. Return power to the junction box and test the fixture.
