

# INSTALLATION INSTRUCTIONS

Item#4870-283 (New. 11/ 19/ 2019)

READ AND SAVE THESE INSTRUCTIONS

**WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.**  
**AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.**

## ASSEMBLING THE FIXTURE (Fig.1)

1. Shut off power at the fuse box or circuit breaker box and remove the old fixture including the mounting hardware.
2. Carefully unpack your new fixture and lay out all the parts in a clean area. Take care not to misplace any small parts necessary for installation.
3. Remove the screw (G), and remove the outer frame (K).
4. Insert the front glass (J) and side glass (I) into the outer frame (K), then secure the glass with clips (L).
5. Place the inner frame (H) into the outer frame (K), then secure it with screws (G)

## MOUNTING THE FIXTURE (Fig.2)

6. Thread the mounting screws (A) into the pre-drilled holes in the circular strap (C) spaced the same distance apart as the holes in the back plate of the fixture body and secure with hex nut (B).
7. Attach the circular strap (C) to the outlet box using the outlet box screws (D) (size: #8-32N\*L0.5"). The side of circular strap (C) marked "GND" must face out.

## CONNECTING THE WIRES (Fig. 3)

8. At this point, connect the fixture wires as shown in Fig.3, making sure that all wire connectors are secured. If your outlet box has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the fixture's ground wire directly to the circular strap (C) using the green screw provided. After the wires are connected, tuck them carefully inside the outlet box.

## FINISHING THE INSTALLATION (Fig. 2)

9. Align the fixture body (E) onto screws (A) and secure it with cap nuts (F).
10. Install (2) two candelabra base bulbs up to 60 watts each or CFL or LED equivalent (not included) in accordance with the fixture specification — **DO NOT EXCEED THE MAXIMUM WATTAGE RATING! (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!).**

## MIN 75°C SUPPLY CONDUCTORS

Your installation is now complete. Return power to the outlet box and test the fixture.

**Note: Illustration (Fig.1) (Fig.2) on this manual is for installation purposes only. It may or may not be identical to the fixture purchased.**
