10/23

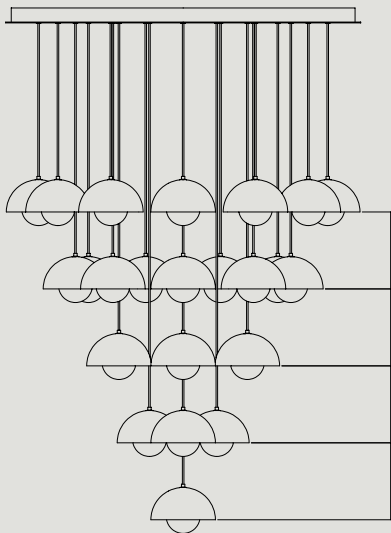

For indoor use only

&Tradition®

### Suggested placement for VP1

We recommend hanging the pendants layers for the VP1 with either 27,5 cm to achieve the visual expression on the left and or 16 cm to achieve the visual expression on the right.

### Suggested placement for VP10

We recommend hanging the pendants layers for the VP10 with 19 cm to achieve the visual expression for both versions as seen below.

**Please follow steps 1-6 to assemble the product.**

### **Step 1 / 6**

---

Place the ceiling bracket in the desired location. Mark the placement of the holes with a pencil.

Drill holes for the ceiling bracket and use the correct type of screws and plugs for the type of ceiling, on which the canopy is to be installed.

Tighten the screws and ensure the ceiling bracket is safely fixed.

### **Step 2 / 6**

---

Now you can let go of the canopy. The wires will carry the weight.

Then pull the cords through the strain reliefs. Adjust the cord lengths and tighten the strain reliefs (clockwise) to lock the cord in place.

Install the wires from the cord to the terminal connectors by pressing down the button.

### Step 3 / 6

---

Now you can connect the canopy to the powercord in the ceiling.

### Step 4 / 6

---

Lift the canopy including pendants up to the hinges.

Make sure the wires are placed inside the canopy.

### Step 5 / 6

---

Placed the canopy onto the ceiling bracket in the L-slot and turn it.

The pre mounted screws will help guide you.

### Step 6 / 6

---

Tighten and secure the screw and make sure the canopy is proper fastened onto the ceiling bracket.
