

Product Cleaning And Maintenance

Please confirm that the power plug has been unplugged before cleaning and maintenance.

- This machine only needs general external cleaning and maintenance.
- Clean the air inlet / outlet, wipe the body with neutral detergent and soft cloth, and clean the water tank separately after taking it out.
- Do not wash the product directly with water, and do not use acid-base cleaners, which may lead to discoloration and machine failure.
- After cleaning, please dry it with a soft dry cloth and place it completely in the air before use.
- If the machine is not used for a long time, it shall be powered on for several minutes from time to time to ensure good performance of the machine.

Matters Needing Attention

- Before the first use, please check whether the voltage you use is consistent with the product.
- Please check whether the power cord and plug are damaged before use.
- If the power cord is damaged, it must be replaced by professionals of the maintenance department in order to avoid danger.
- Do not bend or pull the wire to avoid poor contact.
- When using, remember not to block the air inlet and outlet to avoid improper exhaust of the dehumidifier, resulting in excessive internal temperature.
- When leaving or not using for a long time, be sure to cut off the power supply and unplug the power plug.
- Turn off the power before pulling out the plug. Do not pull the power cord, hold the head of the plug and pull it out.
- Do not pull out the power plug with wet hands, there is a risk of electric shock.
- Place the product in a horizontal place without tilting to prevent water leakage.
- Do not use iron wire or thin rod to dig out the inside of the machine during operation to avoid failure or danger.
- Do not use it in places with much dust or volatile acid, alkali and oil.
- Do not put the adapter in a humid or humid place.
- When dehumidification is not required, press the on key and unplug the power cord.
- This product is not suitable for people (including children) with physical, sensory or intellectual defects or lack of experience and common sense, unless they are given adequate care and guidance by their guardian on how to use this product.
