

THE NEW SAVANT

The New Savant is a modern scent studio located in Brooklyn, NY.

We blend high-end, original fragrances with approachable materials, to create something that looks good and smells better.

Ingrid Nilsen, co-founder and Chief Creative, designs each candle herself, creating original olfactory experiences that tell a story. As a queer, mixed race woman, she draws inspiration from personal experience to create scents that feel emotionally familiar and completely new to the sense of smell.

Our name, THE NEW SAVANT, honors the untraditional, self-made path in life. We are LGBTQ+, women and AAPI owned.

CLOUD GAZER

Cloud Gazer began with Ingrid's love of daydreaming, Earl Grey tea and watching British period dramas with her mother. With notes of bergamot, lavender and steamed vanilla, this creamy, comforting fragrance will transport you to a cozy, countryside cottage on a wet spring day with a warm cup of tea in your hands. Made for the dreamers, this candle is full of that head-in-the-clouds spirit and the promise of sunnier days ahead.

MIXED FEELINGS

Mixed Feelings is inspired by Ingrid's mixed race heritage – she's half Thai and half Norwegian. You may notice notes you've never seen paired together before and that's intentional. This fragrance is an exploration of opposing identities, the tension and complexities that come along with that and the beauty that can be found in nuance. Mixed Feelings blends the aroma of steamed rice with florals, fruits, wood and incense for a powerful scent that is unabashedly unique.

THE USUAL

The Usual is inspired by Ingrid's Saturday morning walks in Brooklyn and the distinct sense of fondness and belonging that develops when you become a regular - at a coffee shop, cafe, store, or even just around the block. Sweet, warm, and inviting, this decadent scent is balanced by wood notes and has an ease to it that will make you want to burn it every day.

ANDROGYNE

Androgyne began with Ingrid's love of Paris – from the hotels, to the music, to the sounds of the street and of course, the people. It's an exploration of sensuality and the space beyond binaries. Neither masculine nor feminine, this is a scent that seems to shift ever so slightly with time. If "je ne sais quoi" could be embodied in a fragrance, this would be it.

HEATWAVE

Heatwave was inspired by Ingrid's SoCal roots, where summer felt like a year-round season. Sunny, verdant, and endlessly dreamy, this energizing fragrance centers one of Ingrid's favorite smells and an unusual note to find in candles: fresh dill. Combined with cucumber, juicy peaches and wet earth, Heatwave is balanced, unique and the perfect scent to burn for a little mood boost. In the studio, we affectionally call this our "sleeper hit" because at first glance people aren't sure what to expect, but when they smell this fragrance, they keep coming back for more - making it one of our top three bestsellers of all-time.

DUVET DAY

Duvet Day is inspired by Ingrid's love of coziness and spending time alone. For her, nothing feels more rejuvenating than a quiet day at home, basking in simple pleasures like cuddling with her pups, watching rom-coms, and snuggling up in her favorite blanket. Duvet Day is the perfect fragrance for introverts and anyone else who takes leisure seriously.

THE DROPOUT

The Dropout was inspired by Ingrid's lifelong love of learning and her distaste for school. As a college dropout herself, she knows what it feels like to be underestimated – especially when you decide to take an untraditional path in life. With notes of golden saffron, hemp leaves, rhubarb, smoked vanilla and leather, The Dropout is bold, rebellious and has a rich inner quality to it. When first lit, this candle is unexpectedly warm and grounding, but that's the thing about rebels – they're always full of surprises.

DREAMGIRL

DREAMGIRL is inspired by Ingrid's teenage years. A revisionist history of sorts, this scent reimagines young love through a queer lens. Today, Ingrid is an out lesbian, but what would it have been like to date girls in high school? What would a dream date look like? What would her dream girl be like? With notes of cherries, leather and rose, this scent is youthful, mysterious, and sensual all at once. Think of it as a coming of age story through smell.

Summer Splendor was inspired by Ingrid's love of Castelvetro olives and dining al fresco. With notes of Italian white wine, salty green olives, charred artichoke and roasted sesame, this fragrance smells like a sun-drenched summer holiday with friends. Its uniquely fruity, briny and lush qualities make it an unusual scent, but one that's sure to be a crowd pleaser at your summer gatherings.
