

Z70

Color capacitive touch panel with 7" display for total control in smart homes and hotel rooms in a minimalist aesthetic environment.

The built-in proximity sensor makes the screensaver appear when the touch panel is not being used and the luminosity sensor adjusts the brightness automatically. Z70 incorporates an internal temperature probe, thermostat and 4 analog-digital inputs. It includes USB and Ethernet port for program update. Installation in standard double mounting box.

Advanced features can be activated with the following licenses:

- Smartphone Control License – Remote control from smartphones and tablets through a mobile app.
- Video Intercom License – Integration with the video intercom Zennio GetFace IP.
- Video Call License – Reception of calls from video intercom Zennio GetFace IP in mobile app.

Accessories: temperature probe and motion sensor.
