

TMD Plus - Customizable

TMD Plus is a KNX switch with capacitive buttons that satisfies the design requirements of any building thanks to its total customization.

Anyone can create unique compositions, which could include images, icons, texts or logos, as well as decide how to install it (portrait or landscape). This customization is printed on a high strength tempered glass.

Available formats of 4, 6 or 8 buttons, so that pairs or individual buttons can be used as personalized controls with LED indicators. TMD Plus has 5 LEDs that can be used as additional buttons to assign direct functions. It also includes thermostat function, internal temperature probe and two analog/digital inputs.

Accessories: temperature probe and motion sensor.

Frame options:
