

DVDO

DVDO-Camera-Ctl-Mini

Mini IP PTZ Camera

Controller with Joystick

DVDO-Camera-Ctl-Mini is small PTZ controller with a joystick, an LCD display and 20 buttons that can control up to 1,024 cameras over IP.

The 4D joystick can control the pan, tilt and zoom and can save up to 10 position presets for each camera. Other controls include focus, iris and cruise.

The web-based GUI allows easy set up and configuration of the cameras.

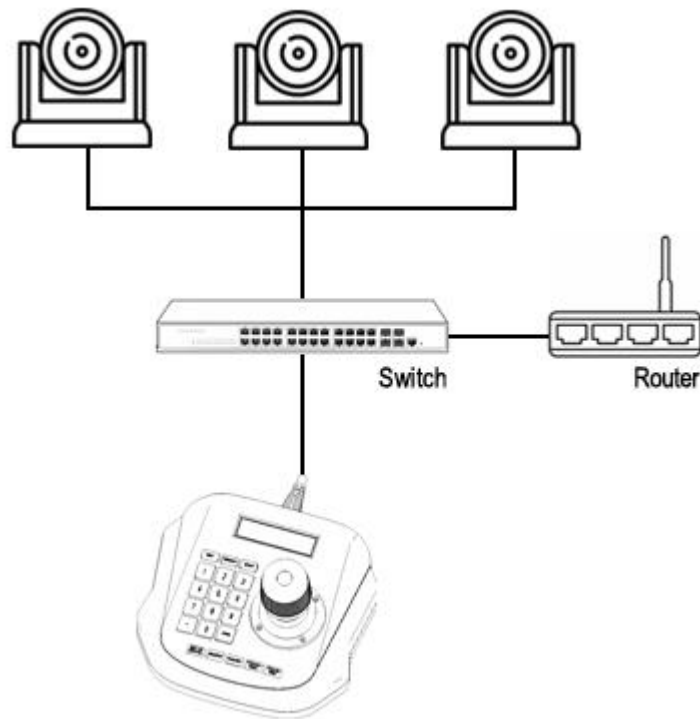

Features

- 4D joystick (up/down, left/right, zoom in/out, confirm) for pan, tilt and zoom control of the cameras
- LCD display & soft keyboard with 20 buttons
- Controls up to 1,024 PTZ cameras over IP
- Controls include focus, zoom, iris, preset, cruise,...
- Saves & recalls up to 10 position presets for each camera
- Supports ONVIF protocol and auto-discovery
- Cameras can be added when controller is offline
- Web-based GUI for easy setup and configuration

Applications

- Education
- Healthcare
- Broadcasting
- Production
- Houses of Worship
- Courtrooms
- Live Events
- Live Streaming
