Help the Pincos solve

THE CHRISTMAS MYSTERY

For some time, strange things have been happening in the Pincos' Christmas Village. Their gifts seem to have disappeared when they wake up. The village fears that the Grinches have returned, well known for stealing gifts after dark. It's up to the Pincos to find out who the Grinches hiding among them are, in order to get back their gifts, and thus save Christmas.

ROLES

THE MASTER

The Master leads the game and players, calling them one by one at night and leading the vote during the day.

THE PINCOS

The Pincos don't have any particular power, and they stay asleep during the night. Their goal is to identify all of the Grinches in the village in order to win the game.

THE GRINCHES

Every night, the Grinches wake up and meet to decide which Pincos' presents to steal. During the day, they try not to reveal themselves as a Grinch by pretending to be a regular Pinco.

MARYKARO

Marykaro has the power to give back a present to a player who had their present stolen, thanks to her magic sugar cookie. She can also take away a player's present of her choice with her magic bitter cookie. She has the choice to use both cookies in one night, to use only one, or none at all.

PIU PIU

Piu Piu's role is to wake up discreetly during the night to spy on the Grinches. Piu Piu can't be caught spying on the Grinches, and can't reveal his role as spy during the day.

MOUSO

During every round, Mouso can choose to look at one of a player's cards.

HOW TO PLAY

A minimum of 6 players is required to play (one Master and five players). The roles can be distributed according to your preferences, but there must be at least two Grinches.

Choose a Master to lead the game and distribute cards to the players. The players' cards should be placed within easy reach of the Master.

At night, the village goes to sleep and the players close their eyes.

The Master then calls upon the Mouso. The Mouso picks one of the players' cards to look at, and the Master shows him the card discretely and silently. The Mouso then goes back to sleep.

The Master calls on the Grinches. The Grinches silently choose which player they want to steal a present from, and then they go back to sleep.

The Master calls on Marykaro, and silently shows her which player the Grinches stole a present from. She can use her magic sugar cookie to give the Pinco back their present. If she chooses to use a bitter cookie, she can steal another player's present. She can also choose not to use any cookie, or to use only one. She then goes back to sleep.

The village wakes up and the Master announces which Pincos got their presents stolen during the nighttime. The Pincos whose gifts were stolen reveal their cards, without giving any other information away that they may have. They can silently participate for the remainder of the game.

The remaining players then meet to discuss who the Grinch or Grinches are, hoping to steal back their present. Once the Grinch is determined by the vote, the supposed Grinch should reveal his cards and silently participate in the remainder of the game.

Once the vote is done, the village goes back to sleep and the game continues until the end of the round.

The round ends when there are no more Grinches in the village, or when there are only Pincos left.
