GARLAND

You'll need :

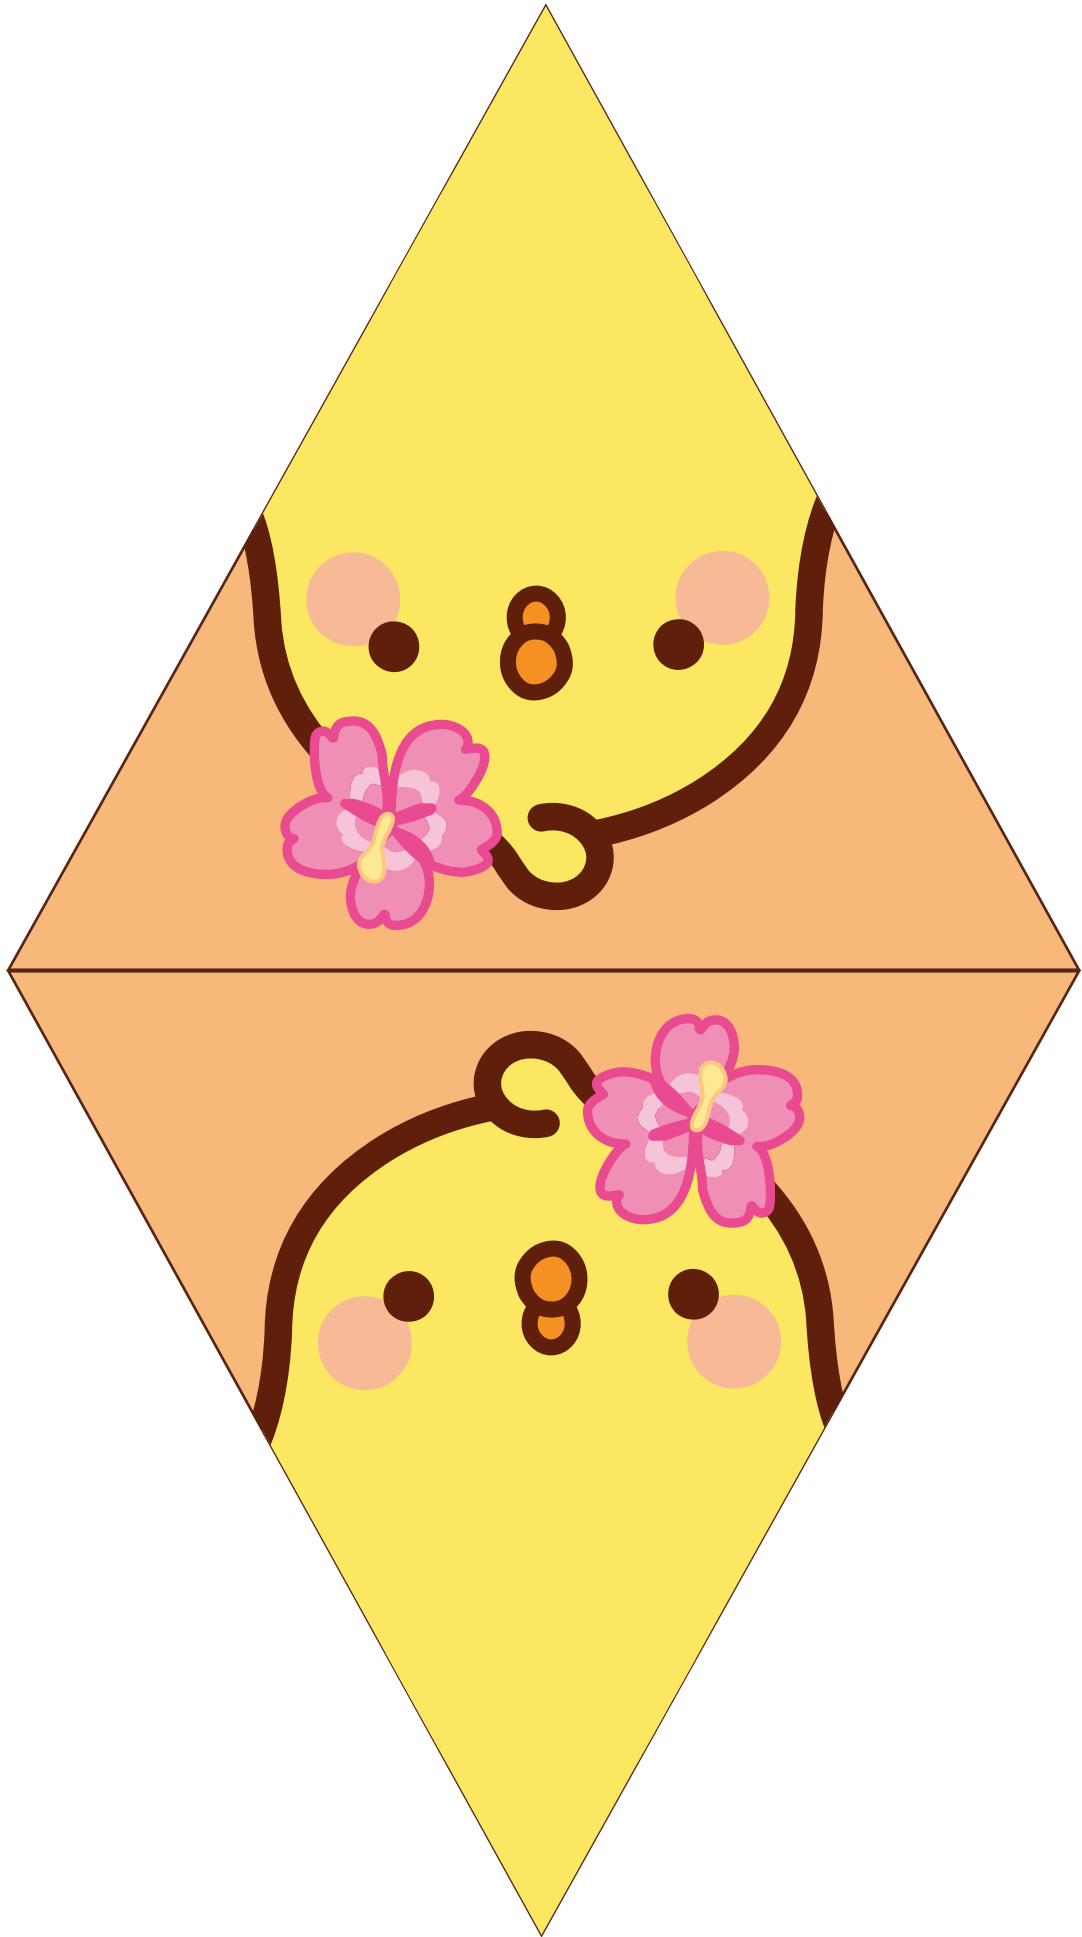

- Some ribbon or string
- A pair of scissors
- Some glue or double sided sticky tape

Steps :

1. With your scissors cut out the diamond shaped flag. Next, fold each diamond shape in half and stick both sides together with the glue. Leave a gap at the wider end of the flag to thread your ribbon or string through.
2. Take your string or ribbon and thread it through the small hole that you left in the wider end of the flag. When you have added all of the flags pieces, cut your ribbon/string and tie a knot.
You're ready to decorate!
